INDEPENDENT AUDITORS' REPORT

The City of Lockport Common Council City of Lockport, New York

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of City of Lockport, New York (the City) as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows and the respective budgetary comparisons for the general and water funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and other required supplementary information, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements are fairly stated in all material respects in relation to the financial statements as a whole.

Management's Discussion and Analysis (unaudited)

December 31, 2019

Introduction

Management's Discussion and Analysis (MD&A) of City of Lockport, New York (the City) provides an overview of the City's financial activities and performance for the year ended December 31, 2019. The information contained in the MD&A should be considered in conjunction with the information presented in the City's financial statements that follow. This MD&A, the financial statements, and notes thereto are essential to obtaining a full understanding of the City's financial position and results of operations. The City's financial statements have the following components: (1) government-wide financial statements, (2) governmental fund financial statements, (3) reconciliations between the government-wide and governmental fund financial statements, (4) proprietary fund statements, (5) agency fund statements, (6) notes to the financial statements, and (7) required supplementary information.

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business. The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the net difference reported as net position. The statement of activities presents information showing how the City's net position changed during each year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in the statement for some items that will result in cash flows in future periods. The government-wide financial statements present information about the City as a whole. All of the activities of the City are considered to be governmental activities.

Governmental fund financial statements focus on near-term inflows and outflows of resources, as well as on balances of resources available at the end of the year. Such information may be useful in evaluating the City's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide statements, it is useful to compare the information presented for governmental activities in the government-wide financial statements. By doing so, the reader may better understand the long-term impact of the City's near-term financing decisions. The reconciliation portion of the financial statements facilitates the comparison between governmental funds and governmental activities.

Proprietary funds are used to report activities that provide goods or services to other funds or departments of the City and include the health insurance and workers' compensation internal service funds. Because the activities recorded in the funds are governmental in nature, such amounts are also reflected in the government-wide statements. Eliminations have been made to remove the "doubling-up" effect in the statement of activities.

Agency funds are used to account for resources held for the benefit of parties outside the City. Agency funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's programs. The notes to the financial statements provide additional information that is essential for a full understanding of the government-wide and governmental fund financial statements. Supplementary information further explains and supports the financial statements and includes information required by generally accepted accounting principles.

				Change				
Condensed Statement of Net Position		2019	2018	\$	%

Total liabilities	_	124,914,000	128,068,000	(3,154,000)	(2.5%)			
Deferred inflows of resources		25,195,000	24,923,000	272,000	1.1%			
Net position								
Net investment in capital assets		53,221,000	49,350,000	3,871,000	7.8%			
Restricted		5,004,000	4,178,000	826,000	19.8%			
Unrestricted		(110,079,000)	(114,119,000)	4,040,000	(3.5%)			
Total net position	\$	(51,854,000)	\$ (60,591,000)	\$ 8,737,000	(14.4%)			

The City's net position was a deficit balance of \$(51,854,000) at December 31, 2019 compared to a deficit balance of \$(60,591,000) at December 31, 2018. Capital assets (infrastructure, buildings, improvements, machinery and equipment) represent the largest portion (74.5%) of the City's total assets (74.8% in 2018). Long-term liabilities outstanding total 89.1% in 2019 and 92.7% in 2018 of total liabilities. A portion of the City's long-term obligations relate directly to infrastructure and other capital assets, while the majority is associated with the City's other postemployment benefits (OPEB) and pension obligations.

Current assets increased by \$2,535,000 (increase of \$2,331,000 or 12.8% in 2018). These balances consist of cash and receivables from other governments and third parties. The changes in individual account balances generally reflect the timing of cash flows and are also a result of additional bond anticipation note (BAN) proceeds received during 2019. Capital assets increased by \$6,453,000 (increase of \$3,140,000 or 5.5% in 2018) due to work on the City's infrastructure and building improvement projects, offset by current year depreciation expense.

Long-term liabilities decreased \$7,441,000 (increase of \$55,336,000 or 87.3% in 2018) due to a reduction in the OPEB liability as well as principal payments made on long-term debt. Long-term liabilities also reflect an increase in the City's share of the net pension liability for the New York State and Local Retirement System, which includes the Employees' Retirement System (ERS) and the Police and Fire Retirement System (PFRS). The increase in other liabilities of \$4,287,000 (increase of \$1,233,000 or 15.3% in 2018) was due to the issuance of BANs totaling \$3,500,000 through the NYS Environmental Facilities Corporation as well as an increase in existing BANs by \$951,000 to \$2,585,000.

Changes in deferred outflows and deferred inflows of resources for the City's pension activity at the State level are required to be reflected on the financial statements. Deferred outflows of resources include contributions paid by the City to the State pension system after the measurement date which determines the plan's net position. Deferred outflows and deferred inflows of resources also reflect variances from actuarial assumptions, actual results of investment earnings compared to projected earnings, and changes of assumptions for both pensions and the City's OPEB activity.

Total expenses		29,383,000		31,524,000		(2,141,000)	(6.8%)	
Change in net position		8,737,000		6,599,000		2,138,000	32.4%	
Net position – beginning	_	(60,591,000)		(67,190,000)		6,599,000	(9.8%)	
Net position – ending	\$	(51,854,000)	\$	(60,591,000)	\$	8,737,000	(14.4%)	

The main revenue sources supporting the City's programs are sales and property taxes which represent 50.3% of total revenues in 2019 and 52.4% in 2018. Property taxes were consistent with the prior year increasing \$276,000 or 2.1% (increase of \$206,000 or 1.6% in 2018). Sales tax revenue decreased \$1,077,000 (increase of \$352,000 or 5.4% in 2018) in part due to recognition of amounts owed back to New York State as a result of improper reporting by several area businesses that caused the City to receive \$750,000 in sales tax to which it was not entitled. Charges for services, which include water, sewer, and refuse charges, were relatively consistent with 2018, decreasing by \$286,000 or 2.8%. Operating and capital grants and contributions increased \$1,372,000 (increase of \$1,403,000 or 51.7% in 2018) due to an increase in State aid for water capital projects.

Total expenses decreased \$2,141,000 (decrease of \$7,202,000 or 18.6% in 2018). OPEB expense decreased \$3,118,000 due to changes of assumptions in the calculation of the OPEB liability, primarily caused by an increase in the discount rate. Pension and health insurance increases offset some of the OPEB decrease. Such employee benefits are allocated across all support services based on the percentage of payroll expense in each category, with a majority allocated to public safety. Increases in transportation and home and community services are due to increases in depreciation related to new infrastructure.

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

General Fund

The General Fund is the City's main operating fund. This fund is used to account for all City operations that are not financed by a special revenue source. It includes all general City offices, police, justice courts, recreation, safety inspection, other general services, and self-insurance.

CI- - - -

The General Fund experienced an increase in fund balance of \$1,822,000 for 2019 (increase of \$1,370,000 for 2018) primarily due to expenses amounting to less than that budgeted, particularly in payroll and employee benefits, and actual revenue exceeding budget, particularly in revenue from state sources.

Water Fund

The City's water fund is a special revenue fund, used to account for the City's water services provided to taxpayers. This fund experienced an increase in fund balance of \$469,000 for the year ended 2019 (\$639,000 increase for 2018), primarily due to vacancies within positions and unspent funds on contractual items.

Community Development Fund

The Community Development Fund is a special revenue fund supported by money from the U.S. Department of Housing and Urban Development. The fund balance slightly increased by \$39,000 in 2019 (\$64,000 increase in 2018), due to the revenue from the repayment of rehab loans exceeding administrative costs.

Sewer Fund

The City's sewer fund is a special revenue fund used to account for sewer services provided to taxpayers. The fund balance increased by \$309,000 in the current year (\$150,000 increase in 2018). While revenue did not meet budgeted expectations by \$458,000, expenses, particularly in wages due to vacant positions, and unspent equipment, maintenance, and utilities, were \$667,000 less than budgeted.

Refuse Fund

The City's refuse fund accounts for garbage services provided to taxpayers. The fund had an increase in fund balance of \$19,000 for the year ended 2019 (\$47,000 increase for 2018). This was mainly due to slightly less expenditures than budgeted, primarily in program expenses and recycling collection.

• Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for and the payment of interest and principal on general governmental obligations. This fund balance decreased \$13,000 to a total of \$601,000 in 2019 (\$288,000 decrease in 2018) as part of a planned use to reduce budgeting costs for debt service.

Overall, total fund balances for the governmental funds decreased from \$9,293,000 to \$7,513,000 due to the following:

- Revenue for all funds totaled \$39,005,000 and increased by \$816,000 or 2.1%. The increase in revenue was the result of increases in State aid in the form of grants, as previously mentioned.
- Capital projects expenditures were \$8,637,000 in 2019 compared to \$4,929,000 in 2018 due to work on the infrastructure projects within the City. This resulted in a deficit fund balance in the capital projects fund of \$5,172,000 which will be eliminated as BAN payments are made or as the City converts the BANs to permanent financing.
- Payroll increased \$27,000 or 0.2% due to raises as stipulated by bargaining unit agreements, offset by vacancies in various positions and new employees hired at lower salary rates.

General Fund Budgetary Highlights

Actual revenues exceeded budgeted revenues by \$299,000 or 1.2%. The largest variance was in state sources which was over budget by \$262,000. Expenditures (before other financing uses) were under budget by \$1,807,000 or 7.2% with large variances in employee benefits, public safety, and general government support.

Capital Assets

	2019	2018
Land	\$ 3,173,000	\$ 3,173,000
Construction in progress	8,941,000	3,567,000
Infrastructure	22,965,000	20,414,000
Buildings and improvements	68,145,000	67,808,000
Machinery and equipment	8,986,000	8,611,000
Vehicles	 4,640,000	4,640,000
	116,850,000	108,213,000
Accumulated depreciation	(49,751,000)	(47,567,000)
	\$ 67,099,000	\$ 60,646,000

Depreciation expense totaled \$2,184,000 while capital asset additions totaled \$8,637,000. A majority of the capital asset additions relate directly to water and sewer projects as previously discussed.

Debt

At December 31, 2019, the City had \$8,705,000 in bonds outstanding (\$10,549,000 in 2018) with \$1,668,000 due within one year. Compensated absences totaled \$3,210,000 at December 31, 2019 (\$3,201,000 at December 31, 2018) with \$319,000 expected to be used within one year.

Additional information on the City's long-term liabilities can be found in the notes to the financial statements.

Factors Impacting the City's Future

Health insurance costs continue to place an inordinate burden on the City's budgets. The majority of the City's employees receive 100% of their health care coverage for themselves, their spouses, and their children under the age of 26 at no cost to the employee under collective bargaining agreements. Retirees of the City also receive health care coverage for themselves, their spouses, and their children under the age of 26 at no cost to the retiree for the life of the retiree. The City is slowly making headway with its unions to have employees begin to contribute toward their health insurance benefits both as current employees and retirees. For example, all new police officers and firefighters are now contributing 15% of the premium equivalent for health insurance and will continue to pay a minimum of 15% of the premium equivalent for health insurance in retirement.

Retirement costs for employees as mandated by ERS and PFRS, while slowly declining, are projected to remain at levels well above the average over the past 10 years.

The City has had cash flow issues within recent years. On June 16, 2014, the State Assembly of the State of New York approved deficit financing for the City, not to exceed \$5,350,000. A deficit financing bond was ultimately issued in the amount of \$3,945,000 to eliminate prior fund deficits that were created due to poor fiscal management in the prior years. The City began making payments on principal and interest in earnest during 2016. Along with the reorganization of services and the deficit funding available, the City has been better able to fund services to its constituents and maintain a positive cash position.

On January 31, 2020, the United States Secretary of Health and Human Services (HHS) declared a public health emergency related to the global spread of coronavirus COVID-19, and a pandemic was declared by the World Health Organization in February 2020. Efforts to fight the widespread disease included limiting or closing many businesses and resulted in a severe disruption of operations for organizations. The extent of the impact of COVID-19 on the City's operational and financial performance will depend on further developments, including the duration and spread of the outbreak and its impact on state and local governments and its residents, employees, and vendors, none of which can be predicted.

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

For the year ended December 31, 2019

Total net change in fund balances - governmental funds	<u> </u>	
	\$	(1,780,766)
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays are reported in governmental funds as expenditures. In the statement of activities, the cost of the assets is allocated over estimated useful lives as depreciation expense. This is the amount by which capital outlays exceed depreciation expense.		6,452,509
Internal service funds are used by management to charge the cost of certain activities to individual funds. The change in net position of the internal service funds is reported with governmental activities.		(158,630)
Real property tax revenue is recorded to the extent received within 60 days of year end for governmental funds, but on the statement of activities, revenue is earned when the tax levy is issued.		147,046
Revenue related to service billings is recorded to the extent received within 60 days of year end for governmental funds, but on the statement of activities, revenue is recognized when earned.		216
Overpayments of sales tax are recognized when repaid on the fund statement of revenues, expenditures, and changes in fund balance. In the statement of activities, the overpayment is recorded as a reduction in sales tax revenue when discovered.		(770,752)
Pension and OPEB expenses are recognized when paid on the fund statement of revenues, expenditures, and changes in fund balances and actuarially determined on the statement of activities: Pension OPEB	(789,652) 3,723,908	2,934,256
Payments of long-term liabilities are reported as expenditures or reductions in revenue in governmental funds and as a reduction of debt in the statement of net position. Bonds Sales tax overpayment	1,844,000 83,498	1,927,498
In the statement of activities, certain operating expenses are measured by the amounts earned during the year. In the governmental funds these expenditures are reported when paid. The differences are: Interest expense Compensated absences	(6,000) (9,000)	(15,000)
Change in net position - governmental activities	\$	8,736,377

Notes to Financial Statements

1. Summary of Significant Accounting Policies

The financial statements of City of Lockport, New York (the City) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

Financial Reporting Entity

The City is governed by local laws and ordinances, City law, General Municipal Law, and other laws of the State of New York (the State). The governing body is the elected Common Council. The Mayor serves as the chief executive and fiscal officer. The scope of activities included within the financial statements is those transactions that comprise the City's operations and are governed by, or significantly influenced by, the Common Council. The primary functions of the City are to provide basic services such as governmental administration, tax collection, sewer, water, refuse collection, and recreational services.

The financial reporting entity includes all funds, account groups, functions, and organizations over which City officials exercise oversight responsibility. Oversight responsibility is determined on the basis of financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters. The City has no component units as defined by accounting standards.

Risk Management

The City is self-insured pursuant to article 5 of the Workers' Compensation law to finance the liability and risks related to workers' compensation claims. The City also self-funds health insurance. These activities are further discussed in Note 11.

Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display financial activities of the overall City, except for fiduciary activities. Eliminations have been made to minimize double counting of internal activities. These statements are required to distinguish between *governmental* and *business-type* activities of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties. The City does not maintain any business-type activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities.

- Direct expenses are those that are specifically associated with a program or are clearly identifiable to a particular function. Indirect expenses relate to the administration and support of the City's programs, including personnel, overall administration, and finance. Employee benefits are allocated to functional expenses based on a percentage of related payroll expense.
- Program revenues include (a) charges paid by the recipients for goods, water, sewer, and other services offered by the
 programs, and fines and assessments collected for violations of traffic laws or City ordinances, (b) grants and contributions
 that are restricted to meeting the operational requirements of a particular program, and (c) grants and contributions limited
 to the purchase or construction of specific capital assets. Revenues that are not classified as program revenues, including all
 taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the City's funds, including fiduciary funds. Separate statements for each fund category – governmental, proprietary, and fiduciary - are presented. The emphasis of the fund financial statements is on major governmental funds, each displayed in a separate column.

The City reports the following major funds:

- General fund. This is the City's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.
- Capital projects fund. This fund is used to account for and report financial resources that are restricted, committed, or
 assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital
 assets.
- Water fund. This is a special revenue fund whose specific revenue sources, including property taxes, are restricted for the operations and support of the City's water delivery system.

The City's nonmajor funds include the community development, sewer, refuse, and debt service funds. Each fund is established to account for the separate activities for which it is named.

The City's proprietary funds are internal service funds which are used to account for the City's health insurance and workers' compensation operations and are funded by contributions from the general and special revenue funds.

The City reports the following fiduciary fund:

• Agency fund. This fund accounts for assets held by the City as agent for payroll, employee third party withholdings, and seized assets. The agency fund is custodial in nature and does not involve measurement of results of operations.

Basis of Accounting and Measurement Focus

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City receives value directly without giving equal value in exchange, include property and sales taxes, grants, and donations. Revenue from property taxes is recognized in the fiscal year for which taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The City considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset purchases are reported as expenditures in governmental funds. Proceeds of long-term liabilities and equipment and property purchased under capital leases are reported as other financing sources.

Under the terms of grant agreements, revenues are recognized to the extent of program expenditures. Amounts received in advance of the expenditures are considered unearned and reported as revenue when the expense is incurred.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Property Taxes

Real property taxes are levied annually no later than December 31st and become a lien on January 1. Tax payments are due and payable during the first week of February. The City is responsible for collection of delinquent property taxes for the City School District of the City of Lockport. In the event that school taxes are not collected from the City's re-levy, the City is required by law to remit taxes in full to the school district within two years from the return of unpaid taxes to the City. A provision for uncollected taxes is estimated based on historical collection experience.

The City is subject to tax abatements granted by Niagara County Industrial Development Agency (NCIDA) to promote and assist private sector industrial and business development. Through NCIDA, entities promise to expand or maintain facilities or employment in the City, establish a new business in the City, or relocate existing business to the City. Economic development agreements entered into by NCIDA can include the abatement of City, town, and school district taxes, in addition to other assistance. The City also has tax abatement agreements with housing development and redevelopment companies under New York State Private Housing Finance Law. The tax abatements have resulted in reductions of property taxes, which the City administers as temporary reductions of property taxes, which can be as much as 100%. For the year ended December 31, 2019, the City's real property tax abatement totaled \$170,000 under these agreements. However, because the abated amounts are spread across the City's entire tax base, there is no impact on the overall property taxes collected.

Budgetary Process, Amendments, and Encumbrances

Annual appropriations are adopted and employed for control of the general and special revenue funds. These budgets are adopted on a GAAP basis under the modified accrual basis of accounting. Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances) which may be incurred. Appropriations authorized for the current year are increased by the planned use of specific restricted, committed, and assigned fund balances and subsequent budget amendments approved by the Common Council as a result of new revenue sources not included in the original budget.

No later than September 15 of each year, a tentative budget is submitted to the Common Council for the fiscal year commencing the following January 1. The tentative budget includes both proposed expenditures and the means of financing for all funds. After public hearings are conducted to obtain comments from interested parties, the Common Council adopts the budget. The Mayor exercises administrative budgetary control throughout the year. All modifications of the budget must be approved by the Common Council.

Major capital expenditures are subject to individual project budgets determined primarily by the cost of the project and external financing rather than annual appropriations. For the capital projects fund, these budgets do not lapse at year end and are carried over to the completion of the project.

Encumbrance accounting is used to assure budgetary control over commitments related to unperformed (executory) contracts for goods or services outstanding at the end of each year. Encumbrances are budgetary expenditures in the year committed and in the subsequent period when the expenditure is paid. All budget appropriations that are unencumbered lapse at the end of the fiscal year. Encumbrances outstanding at year end are presented for GAAP-related purposes as committed or assigned fund balances and do not constitute expenditures or liabilities. At January 1, encumbrances carried forward from the prior year are reestablished as budgeted appropriations.

Loans Receivable

The City manages loans given in relation to their Community Development program. These loans are provided under the restrictions of the Housing and Urban Development guidelines as part of the HOME and Community Development Block Grant programs.

Prepaid Expenses

Pension payments made to the New York State and Local Retirement System including the Employees' Retirement System (ERS) and the Police and Fire Retirement System (PFRS) in December of each year include costs applicable to future periods that are recorded as prepaid expenses on a fund basis. On a government-wide basis, such payments are included in deferred outflows of resources. Payments made for insurance are expensed on a fund basis and reflected on the statement of net position on an accrual basis.

Investments

Investments include certificates of deposit, repurchase agreements, and U.S. Treasury Securities held in external investment pools and recorded at fair value.

Capital Assets

Capital assets including infrastructure are reported at actual or estimated historical cost based on appraisals. Contributed assets are recorded at fair value at the time received. Depreciation is provided in the government-wide statements over estimated useful lives using the straight-line method. Maintenance and repairs are expensed as incurred; significant improvements are capitalized.

Capitalization thresholds for determining which asset purchases are added to capital accounts and the estimated useful lives of capital assets are:

	С	apitalization	Estimated Useful
		Policy	Life in Years
Roads	\$	35,000	10-75
Infrastructure	\$	35,000	25-100
Buildings and improvements	\$	35,000	100
Furniture and equipment	\$	35,000	10-25
Vehicles	\$	35,000	10-25

Unearned Revenue

In the fund statements, property tax revenue is recognized in the year for which the levy is made, and to the extent that such taxes are received within the reporting period or 60 days thereafter. The government-wide statements include all property tax revenue levied during the year. Property taxes receivable are displayed net of the estimated allowance for uncollectible taxes. In addition, resources, such as grant monies received prior to incurring qualifying expenditures, are recorded as unearned revenue until the criteria for recognizing such revenue is met.

Compensated Absences

The liability for compensated absences reported in the government-wide financial statements consists of unpaid accumulated sick and vacation time. The liability has been calculated using the vesting method, in which leave amounts for both employees currently eligible to receive payments and other employees expected to become eligible to receive such payments are included. Sick pay is accrued on the basis of negotiated contracts with employee groups which provide for the payment of accumulated sick time at various amounts at retirement.

The government-wide financial statements reflect the entire liability, while in the governmental funds financial statements only the amount of matured liabilities is accrued based on expendable available financial resources.

Pensions

The City participates in the New York State and Local Retirement System, including ERS and PFRS, as mandated by State law. ERS and PFRS recognize benefit payments when due and payable in accordance with benefit terms; investment assets are reported at fair value. On the government-wide statements, the City recognizes its proportionate share of net pension position, deferred outflows and deferred inflows of resources, pension expense, and information about and changes in the fiduciary net position on the same basis as reported by the defined benefit pension plans.

Other Postemployment Benefits (OPEB)

On the government-wide statements, the total OPEB liability, deferred outflows and deferred inflows of resources, and OPEB expense for the City's defined benefit healthcare plan (Note 10) have been measured on the same basis as reported by the plan. Benefit payments are recognized when due and payable in accordance with benefit terms.

Equity Classifications

Government-Wide Statements

- Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by outstanding balances of any related debt obligations attributable to the acquisition, construction, or improvement of those assets.
- Restricted consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets if
 their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state
 laws or the terms of the City's bonds.
- Unrestricted the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that
 are not included in the determination of net investment in capital assets or the restricted component of net position and
 therefore are available for general use by the City.

Governmental Fund Statements

The City considers unrestricted resources to have been spent first when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, unless the use of the restricted amount was appropriated in the current year's budget or the revenue source is specifically restricted or committed for expenditure. Within unrestricted fund balance, the City considers committed, assigned, then unassigned resources to have been spent when an expenditure is incurred for which amounts in any of those fund balance classifications could be used.

Restricted fund balances generally result from residual fund balance in special revenue funds and reserves established by the State of New York Legislature and included in General Municipal Law, as authorized for use by the Common Council. Earnings on invested resources are required to be added to the various reserves.

Committed fund balances are authorized by the Common Council as recommended by the City's management prior to the end of the year, although funding of the commitment may be established subsequent to year end. Assigned fund balances include the planned use of existing fund balance to offset the subsequent year's tax levy. The Common Council has given management the authority to assign fund balances for specific purposes that are neither restricted nor committed. Nonspendable fund balances represent resources that cannot be spent as they are not expected to be converted to cash and include prepaid expenses.

Interfund Balances

The operations of the City include transactions between funds including resources for cash flow purposes. These interfund receivables and payables are repaid within one year. Permanent transfers of funds provide financing or other services.

In the government-wide statements, the amounts reported on the statement of net position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due from or to fiduciary funds.

Interfund receivables and payables are netted on the accompanying governmental funds balance sheet as the right of legal offset exists. It is the City's practice to settle these amounts at the net balances due between funds.

2. Stewardship and Accountability

The capital projects fund's deficit fund balance of \$5,172,337 will be funded when bond anticipation notes are redeemed from subsequent budget appropriations or converted to permanent financing.

3. Cash and Investments

Cash management is governed by State laws and as established in the City's written policies. Cash resources must be deposited in FDIC-insured commercial banks or trust companies located within the State. The City's banking policies permit the use of demand accounts and certificates of deposit. Invested resources are limited to obligations of the United States Treasury and its Agencies, repurchase agreements, and obligations of the State or its localities.

Collateral is required for demand and time deposits and certificates of deposit not covered by Federal Deposit Insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and school districts.

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. At December 31, 2019, the City's bank deposits were fully collateralized by FDIC coverage and securities held by the pledging institution's agent.

Credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City's external investment pool is rated AAAm from S&P's Global Ratings.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In order to limit its exposure, the City's external investment pool limits the maturity dates of its investments. The dollar weighted average days to maturity (WAM) at June 30, 2019, the most recent information available, is 54 days. Next interest rate reset dates for floating rate securities are used in calculation of the WAM. The weighted average life of the pool is 79 days.

4. Loans and Accounts Receivable

Loans receivable	
Community development fund:	
Community development	\$ 150,500
Home ownership	336,787
Rental rehabilitation	21,693
Deferred other	409,807
Home loans – NYS Division of Housing and Community Renewal	47,094
	\$ 965,881
Accounts receivable	
General fund:	
City taxes receivable – current	\$ 987,115
City taxes receivable – overdue	957,290
Installment sales agreements	6,668
School taxes receivable	1,346,272
Accounts receivable	 140,681
	3,438,026
Less allowance for doubtful accounts	 354,980
	3,083,046
Water fund:	
Water rents receivable	988,250
Sewer fund:	
Sewer rents receivable	706,524
Refuse fund:	
Assessments receivable	 358,016
	\$ 5,135,836

5. Interfund Transactions – Fund Financial Statements

					Trans		5
	F	Receivable	Payable	In			Out
Governmental funds							
General	\$	2,305,848	\$ 14,795	\$	261,186	\$	178,991
Capital projects		-	1,749,422		319,689		444,679
Water		71,642	-		20,700		-
Community development		-	17,557		-		-
Sewer		59,674	-		153,998		100,000
Debt service		-	-		363,097		395,000
Proprietary funds							
Health insurance		-	129,280		-		-
Workers' compensation		-	25,467		-		-
Fiduciary fund		155,054	655,697		-		
	\$	2,592,218	\$ 2,592,218	\$	1,118,670	\$	1,118,670

The capital projects fund will reimburse the general fund for project expenditures when funds become available. Other amounts owed between funds are strictly for cash flow purposes. Amounts transferred to the capital projects fund from the general and sewer funds represent the funding of and costs associated with various capital projects. The transfer from debt service to the general and sewer funds is to pay debt service. The transfer to debt service from the capital projects fund is the unspent balance of a closed project and will be used to pay future associated debt payments.

6. Capital Assets

	January 1, 2019		Increases	Retirements/ Reclassifications	December 31, 2019		
Non-depreciable capital assets:							
Land	\$	3,173,000	\$	-	\$ -	\$	3,173,000
Construction in progress	•	3,567,076	•	8,262,421	(2,888,493)	•	8,941,004
Total non-depreciable assets		6,740,076		8,262,421	(2,888,493)		12,114,004
Depreciable capital assets:

Vehicles		4,639,686		-	-		4,639,686
Total depreciable assets		101,472,537		374,831	2,888,493		104,735,861
Less accumulated depreciation:							
Infrastructure		7,913,954		955,962	-		8,869,916
Buildings and improvements		30,322,329		705,993	-		31,028,322
Machinery and equipment		5,607,610		320,253	-		5,927,863
Vehicles		3,722,458		202,535	-		3,924,993
Total accumulated depreciation		47,566,351		2,184,743	-		49,751,094
Total depreciable assets, net		53,906,186		(1,809,912)	2,888,493		54,984,767
	\$	60,646,262	\$	6,452,509	\$ -	\$	67,098,771

Depreciation expense has been allocated to the following functions: general government \$414,407, public safety \$54,140, transportation \$653,198, economic assistance and opportunity \$23,356, culture and recreation \$60,910, and home and community \$978,732.

As of December 31, 2019, net investment in capital assets consists of the following:

Capital assets, net of accumulated depreciation	\$ 67,098,771
Cash held for capital projects, net of related payables	913,063
Bond anticipation notes	(6,085,400)
Bonds	(8,705,000)
	\$ 53,221,434

7. Short-Term Debt

Bond anticipation notes (BANs) outstanding at December 31, 2019 amounted to \$6,085,400 (\$1,634,000 as of December 31, 2018), carry interest at rates ranging from 1.94%-2.25% (3.0% at December 31, 2018), and mature through June 2021. In 2019, the City reissued the existing BANs and increased the amount by \$951,400 for the issuance of a new BAN totaling \$2,585,400. The City also obtained a BAN totaling \$3,500,000 through the NYS Environmental Facilities Corporation which is intended to be converted to a conventional bond in October 2020 together with its other outstanding BANs.

8. Long-Term Liabilities

	January 1,			December 31,	Amount Due
	2019	Increases	Decreases	2019	In One Year
Serial bonds	\$ 10,549,000 \$	- \$	1,844,000	\$ 8,705,000	\$ 1,668,000
Compensated absences	3,201,000	9,000	-	3,210,000	319,000
Sales tax overpayment	-	770,752	83,498	687,254	77,075
	\$ 13,750,000 \$	779,752 \$	1,927,498	\$ 12,602,254	\$ 2,064,075

Existing Obligations

	Final	Interest	
Description	Maturity	Rate	Balance
2008 Public Improvement serial bond	March 2022	4.23%	\$ 245,000
2012 Public Improvement serial bond	December 2022	0.6%-2.4%	195,000
2014 Public Improvement serial bond	May 2024	2.65%-3.0%	355,000
2014 Deficit Financing serial bond	October 2024	5.0%	2,405,000
2015 Serial bond refunding*	March 2037	4.13%-4.79%	895,000
2017 Public Improvement serial bond	May 2029	2.0%-2.875%	 4,610,000
			\$ 8,705,000

^{*}The terms of the New York State Environmental Facilities Corporation (EFC) borrowing provide for an interest subsidy of approximately 60% of the stated interest rates shown above. The subsidy is generated from a United States Environmental Protection Agency grant to the EFC which EFC invests and credits to the borrower with the earnings on the invested funds at an offset to the interest payable on the bond. Future interest requirements below reflect the gross rates subject to subsidy.

Debt Service Requirements

	 Serial Bonds				
Years ending December 31,	Principal Intere		Interest		
2020	\$ 1,668,000	\$	269,618		
2021	1,678,000		219,543		
2022	1,608,000		169,840		
2023	1,203,000		124,397		
2024	1,203,000		82,950		
2025-2029	901,000		154,664		
2030-2034	270,000		73,996		
2035-2037	174,000		12,306		
	\$ 8,705,000	\$	1,107,314		

Deficit Financing

On September 4, 2014, the State Assembly passed a bill to allow the City to issue serial bonds in an amount not to exceed \$5,350,000 for the objective of liquidating deficits within the general, water, sewer, and refuse funds for fiscal years between January 1, 2011 through December 31, 2013. Ultimately, the City issued Series 2014 Serial Bonds totaling \$3,945,000 on December 30, 2013.

Under the conditions of this funding, the City must submit quarterly reports of summarized budgetary data. These reports must be completed within 30 days after quarter-end and must be submitted to the members of the Common Council of the City, the Director of the NYS Division of the Budget, the State Comptroller, and the chairs of the Senate Finance Committee and the Ways and Means Committee. The City must also prepare quarterly trial balances of the general and special revenue funds in accordance with generally accepted accounting principles and submit within the same manner as the budget information.

All tentative budgets prepared while such debt is outstanding, after fiscal year beginning January 1, 2015, must be submitted to the State Comptroller no later than 30 days before the last date on which the budget must be finally adopted so that it may be examined and the State Comptroller can make recommendations as deemed necessary.

Sales Tax Overpayment

Due to an error in reporting by five local businesses, the City mistakenly received \$770,752 in sales tax revenue to which it was not entitled. The State has agreed to a ten-year repayment term, with interest-free payments in the form of reductions in sales tax revenue annually. Amounts are due through November 2028 as follows:

Years ending December 31,	
2020	\$ 77,075
2021	77,075
2022	77,075
2023	77,075
2024	77,075
2025-2028	301,879
	\$ 687,254

9. New York State and Local Retirement System

Plan Description

The City participates in ERS and PFRS (the Systems), which are part of a cost-sharing, multiple-employer, public employee retirement system that provides retirement benefits as well as death and disability benefits. New York State Retirement and Social Security Law governs obligations of employers and employees to contribute and provide benefits to employees. The Systems issue a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained from the New York State and Local Retirement System at www.osc.state.ny.us/retire.

Benefits: The Systems provide retirement, disability, and death benefits for eligible members, including automatic cost of living adjustments. In general, retirement benefits are determined based on an employee's individual circumstances using a pension factor, an age factor, and final average salary. The benefits vary depending on the individual's employment tier. Pension factors are determined based on tier and an employee's years of service, among other factors.

Contribution Requirements: No employee contribution is required for those hired prior to July 1976. The Systems require employee contributions of 3% of salary for the first 10 years of service for those employees who joined from July 1976 through December 2009. Participants hired on or after January 1, 2010 through March 31, 2012 are required to contribute 3% of compensation throughout their active membership. Participants hired on or after April 1, 2012 are required to contribute a percentage ranging from 3% to 6% each year, based on their level of compensation. The Comptroller annually certifies the rates used, expressed as a percentage of the wages of participants, to compute the contributions required to be made by the City to the pension accumulation fund. For 2019, these rates ranged from 9.3%-15.8% for ERS and 15.3%-25.1% for PFRS.

Net Pension Position, Pension Expense, and Deferred Outflows and Deferred Inflows of Resources

At December 31, 2019, the City reported a liability of \$4,840,801 for its proportionate share of the ERS and PFRS net pension position. The net pension position was measured as of March 31, 2019, and the total pension liability was determined by an actuarial valuation as of April 1, 2018. The City's proportion of the net pension position was based on the ratio of its actuarially determined employer contribution to ERS's and PFRS's total actuarially determined employer contributions for the fiscal year ended on the measurement date. At the March 31, 2019 measurement date, the City's proportion was 0.0200312% for ERS, a decrease of 0.0000667, and 0.2040190% for PFRS, an increase of 0.0056703 from their respective proportions measured as of March 31, 2018.

For the year ended December 31, 2019, the City recognized pension expense of \$3,076,764 on the government-wide statements. At December 31, 2019, the City reported deferred outflows and deferred inflows of resources as follows:

	ERS				PFRS			
		Deferred		Deferred		Deferred		Deferred
	C	Outflows of	Inflows of		Outflows of			Inflows of
		Resources	Resources		Resources			Resources
Differences between expected and actual experience	\$	279,485	\$	95,273	\$	831,184	\$	365,304
Changes of assumptions		356,747		-		1,243,132		-
Net difference between projected and actual earnings								
on pension plan investments		-		364,264		-		685,248
Changes in proportion and differences between contributions and								
proportionate share of contributions		11,518		101,284		97,764		152,033
City contributions subsequent to the measurement date		710,615		-		1,529,401		-
	\$	1,358,365	\$	560,821	\$	3,701,481	\$	1,202,585

Contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2020. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years ending December 31,	ERS	PFRS
2020	\$ 242,476	\$ 658,782
2021	(299,762)	(136,821)
2022	(39,111)	(513)
2023	183,326	373,235
2024	 -	74,812
	\$ 86,929	\$ 969,495

Actuarial Assumptions

The actuarial assumptions used in the April 1, 2018 valuation, with update procedures used to roll forward the total pension liability to March 31, 2019, were based on the results of an actuarial experience study for the period April 1, 2010 to March 31, 2015. These assumptions are:

Inflation – 2.5%

Salary increases – 4.2% (ERS), 5.0% (PFRS)

Cost of living adjustments – 1.3% annually

Investment rate of return – 7.0% compounded annually, net of investment expense, including inflation

Mortality – Society of Actuaries' Scale MP-2014

Discount rate – 7.0%

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. The ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Investment Asset Allocation

Best estimates of arithmetic real rates of return (net of the long-term inflation assumption) for each major asset class and the Systems' target asset allocations as of the valuation date are summarized as follows:

		Long-Term
		Expected
	Target	Real Rate
Asset Class	Allocation	of Return
Domestic equities	36%	4.6%
International equities	14%	6.4%
Private equities	10%	7.5%
Real estate	10%	5.6%
Inflation-indexed bonds	4%	1.3%
Bonds and mortgages	17%	1.3%
Short-term	1%	(0.3)%
Other	8%	3.8%-5.7%
	100%	

Discount Rate

The discount rate projection of cash flows assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Systems' combined fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the City's proportionate share of its net pension liability calculated using the discount rate of 7.0% and the impact of using a discount rate that is 1% higher or lower than the current rate.

City's proportionate chara of the		0% Decrease	1	1.0% Increase		
City's proportionate share of the ERS net pension asset (liability)	\$	(6,205,291)	\$ (1,419,274)	\$	2,601,320	
City's proportionate share of the PFRS net pension asset (liability)	\$	(12,364,887)	\$ (3,421,527)	\$	4,047,217	

10. OPEB

Plan Description

The City maintains a single-employer defined benefit healthcare plan (the Plan) providing for lifetime medical benefits to certain eligible retirees and their spouses. Benefit provisions are based on individual contracts with the City, as negotiated from time to time. Eligibility is based on retired employees age 55 and over with ten to twenty-five years of service depending on hire date and contract applicability. The Plan has no assets, does not issue financial statements, and is not a trust.

At January 1, 2019, employees covered by the Plan include:

Active employees	174
Inactive employees or beneficiaries currently receiving benefits	192
Inactive employees entitled to but not yet receiving benefits	
	366

Total OPEB Liability

The City's total OPEB liability of \$93,874,372 was measured and determined by an actuarial valuation as of January 1, 2019.

The total OPEB liability in the January 1, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Healthcare cost trend rates — based on the SOA Long-Run Medical Cost Trend Model for long-term trend rates, with the City's recent premium history used for short-term trend rates, initially 7.00% with an ultimate rate of 3.94% after 2078 Salary increases — 2.5%

Mortality – RPH-2014 sex distinct, generational mortality adjusted to 2006 using scale MP-2014 and projected forward with Scale MP-2018

Discount rate – 4.1% based on the Bond Buyer Weekly 20-Bond General Obligation Index *Inflation rate* – 2.5%

Changes in the Total OPEB Liability

	 Total OPEB Liability
Balance at December 31, 2018	\$ 102,354,366
Changes for the year:	 _
Service cost	2,546,831
Interest	3,553,687
Changes of benefit terms	-
Differences between expected and actual experience	-
Changes of assumptions or other inputs	(11,387,853)
Benefit payments	 (3,192,659)
Net changes	 (8,479,994)
Balance at December 31, 2019	\$ 93,874,372

The following presents the sensitivity of the City's total OPEB liability to changes in the discount rate, including what the City's total OPEB liability would be if it were calculated using a discount rate that is 1% higher or lower than the current discount rate:

		0% Decrease	Discount Rate			1.0% Increase		
		(3.10%)	(4.10%)			(5.10%)		
Total OPEB liability	al OPEB liability \$ (109,919,108)		\$	(93,874,372)	\$	(81,067,382)		

The following presents the sensitivity of the City's total OPEB liability to changes in the healthcare cost trend rates, including what the City's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% higher or lower than the current trend rates:

		Healthcare Cost								
	1	.0% Decrease		Trend Rate	1.0% Increase					
	(6.	00% to 2.94%)	(7.00% to 3.94%)			(8.00% to 4.94%)				
Total OPEB liability	\$	(79,292,772)	\$	(93,874,372)	\$	(112,581,234)				

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources

For the year ended December 31, 2019, the City recognized OPEB income of \$636,084. At December 31, 2019, the City reported deferred outflows and deferred inflows of resources related to OPEB from the following sources:

	erred Outflows f Resources	Deferred Inflows of Resources		
Differences between expected and actual experience	\$ -	\$	10,972,977	
Changes of assumptions or other inputs	-		12,458,552	
Benefit payments subsequent to the measurement date	 3,087,824		<u>-</u> _	
	\$ 3,087,824	\$	23,431,529	

Benefit payments subsequent to the measurement date will be recognized as a reduction of the total OPEB liability for the year ending December 31, 2020. Other amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years ending December 31,	
2020	\$ (6,736,602)
2021	(6,736,602)
2022	(6,736,602)
2023	(2,890,040)
2024	 (331,683)
	\$ (23,431,529)

11. Risk Management

The City purchases commercial insurance for various risks of loss due to torts, thefts, damage, errors, omissions, injuries to employees, and natural disasters. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three years.

Workers' Compensation

The City has chosen to establish self-insured plans for risks associated with employee workers' compensation claims and health insurance. Generally, liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). The City's exposure is calculated with consideration of the effects of inflation, recent claim settlement trends including frequency and amount of payouts, and other benefit costs. For workers' compensation, the City purchases excess insurance limiting their self-funded rate to \$750,000 per incident for police and fire and \$650,000 per incident for other employees.

	I	Beginning of Year	an	rent Claims d Changes Estimates	Cl	aims Paid	F	nd of Year
2019	\$	2,296,711		728,819	\$	766,361	\$	2,259,169
2018	\$	2,647,983	\$	104,361	\$	455,633	\$	2,296,711

Health Insurance

The City's self-funded health insurance coverage includes various plan options. The City provides a monthly premium equivalent equal to adjusted actual claims and an excess amount to fund an approximate 6% allowance for claims run-off and other uncertainties. The City purchases excess insurance that limits exposure to \$150,000 per incident.

	eginning of Year	aı	rrent Claims nd Changes n Estimates	C	laims Paid	Er	nd of Year
2019	\$ 215,298	\$	4,137,075	\$	4,132,986	\$	219,387
2018	\$ 220,269	\$	3,818,489	\$	3,823,460	\$	215,298

Estimated liabilities for both plans have been accrued on the government-wide and governmental funds financial statements as they are expected to be paid with currently available financial resources.

12. Commitments and Contingencies

The City has entered into contracts with various construction companies for several capital projects. As of December 31, 2019, \$8,941,000 has been spent on ongoing projects, and numerous open contracts are in place.

Litigation

The City is subject to claims and lawsuits that arise in the ordinary course of business. In the opinion of management, these claims will not have a material adverse effect upon the financial position of the City.

13. Risks and Uncertainties

On January 31, 2020, the United States Secretary of Health and Human Services (HHS) declared a public health emergency related to the global spread of coronavirus COVID-19, and a pandemic was declared by the World Health Organization in February 2020. Efforts to fight the widespread disease included limiting or closing many businesses and resulted in a severe disruption of operations for organizations. The extent of the impact of COVID-19 on the City's operational and financial performance will depend on further developments, including the duration and spread of the outbreak and the impact on state and local governments, and its residents, employees, and vendors, none of which can be predicted.

CITY OF LOCKPORT, NEW YORK

Required Supplementary Information
Schedule of Changes in the City's
Total OPEB Liability and Related Ratios

December 31,	2019			2018
Total OPEB liability - beginning	\$	102,354,366	\$	121,681,402
Changes for the year:				
Service cost		2,546,831		2,769,409
Interest		3,553,687		4,647,001
Changes of benefit terms		-		(409,216)
Differences between expected and actual experience		-		(17,939,947)
Changes of assumptions or other inputs		(11,387,853)		(5,365,699)
Benefit payments		(3,192,659)		(3,028,584)
Net change in total OPEB liability		(8,479,994)		(19,327,036)
Total OPEB liability - ending	\$	93,874,372	\$	102,354,366
Covered-employee payroll	\$	10,809,083	\$	12,942,524
Total OPEB liability as a percentage of covered-employee payroll		868.5%		790.8%

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

For 2018, differences between expected and actual experience are caused by the withdrawal of seven active employees from employment, the effect of actual healthcare costs compared with previous projections, and the reflection of age-adjusted premiums of approximately 15% less than those assumed for pre-65 members.

The following is a summary of changes of assumptions:

Healthcare cost trend rates	7.0%-3.94%	7.0%-3.94%
Inflation	2.5%	2.2%
Salary increases	2.5%	2.5%
Discount rate	4.1%	3.44%
Society of Actuaries' mortality scale	MP-2018	MP-2018

Data prior to 2018 is unavailable.
