

## Location Map

### PHASE I: GIGP STREETScape IMPROVEMENTS, CITY OF LOCKPORT

## Project Objectives

1. Improve water quality through green infrastructure stormwater management practices
  - ✓ Reduce Combined Sewer Overflow events
  - ✓ Reduce pollutant loadings from entering receiving waterbodies
2. Implement the economic development strategies of the Lockport Downtown Revitalization Initiative (DRI) and the WNY Regional Economic Development Corporation
  - ✓ Increase and improve pedestrian and bicycle amenities to create a more walkable, connected, user friendly and safe downtown
  - ✓ Improve the City's sense of place
  - ✓ Facilitate business development

*Green Infrastructure is proposed along the north side of South Street as proposed in the Downtown Revitalization Initiative (DRI)*
