Dear Ms. Lanzo,

I am the homeowner at 120 West Grant St, Lockport NY. I would like to file a notice of complaint regarding the tree located in front of my home. I believe that the tree is a hazard and should urgently be evaluated for removal.

I've retrieved the information on the tree that I am referencing from the TreeKeeper 8 System for City of Lockport and am including it for your reference below.

Site ID	5287
Species	Maple, Norway
Multi-Stem	No
DBH	22

If you require additional information or further communication, please do not hesitate to reach out via any of the methods listed above.

Sincerely,

**Benjamin Briskey**

To whom it may concern:

This letter is to serve as a notice of claim for damage incurred to the curb at the end of our driveway during snow removal four years ago. The purpose of this letter is solely for the repair and/or replacement of the curb at the end of our driveway.

The issue of damage to the curb occurred when the city was using a backhoe loader to clear areas next to the curb. During removal, a large chunk of the curb was broken off at the end of the driveway at 101 Vermont Avenue (our residence). Initially this resulted in a cosmetic issue for the driveway, but did not create any issue beyond that. Despite further deterioration during the next 2 years, it remained a cosmetic issue. Hence, why there was not a previous claim made for this damage.

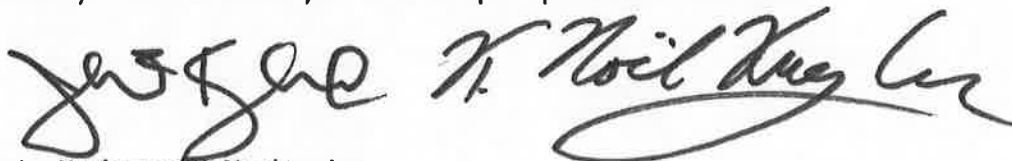

The issue, however, has been compounded in the past 3 years. The City of Lockport paved Vermont Avenue without first milling the street. This has led to the rise in height of the asphalt layer on the street. Now, with the asphalt being higher than the damaged portion of the curb, it leads to excessive pooling at the end of our driveway every time it rains. When the rain event concluded, the water remains pooled at the end of my driveway. This pooling has led to subsequent "sinking" of my driveway approximately within 4 feet next to the street. I can provide both pictures and video of this occurrence upon request. Three (3) pictures are attached to this letter as reference.

We contacted the city verbally on this issue last year and upon inspection we were notified that this can and will be replaced so that no further drainage from the street (Vermont Avenue) will pool/collect at the end of our driveway during rain events. To compensate for the paving of Vermont Avenue without milling it first, this would require a 3/4" to 1" rise in elevation of the new curb at the end of our driveway above the new (present) height of Vermont Avenue's asphalt.

We are formally requesting that the City of Lockport repair the curb to prevent drainage and subsequent pooling into our driveway during rain. We are not requesting any compensation to our driveway itself. Any additional "adjustment" of my driveway's asphalt (on my side of the driveway to compensate for the "rise" of the new curb and correcting the pooling damage) will be taken care of by us and our paving contractor.

Again, we are available for any additional pictures, videos, and information as needed to replace the damaged curb at the end of my driveway.

Thank you in advance for your time and prompt action on this matter.

~ FINANCIAL OPINION MEMO ~

**To:** Mayor and Common Council  
**From:** Timothy Russo, Director of Finance  
**Date:** 6/6/2023, revised 7/20/2023

**Regarding:** Personnel Title Amendment in Water Distribution  
**Data Used in Determination:** New World Personnel Data, Budget Data  
**Other Parties Consulted / Referenced / Involved in Determination:** Public Works Supervisor

The Public Works Supervisor in charge of Water Distribution has requested that an upcoming vacant position, a Water Maintenance Worker (AFSCME 5-7, budgeted at \$43,946) be amended to an HEO position (AFSCME 8-1, to be budgeted as \$38,396) to better fit the needs of the department.

Said amendment would produce a minor net *savings* in the department, assuming a new employee on single health coverage takes the position. Note that in the long term, this action would produce net costs, as the top step of the Water Maintenance Worker is \$45,279 while the HEO maxes out as \$48,055, a difference of \$2,775 (which increases to slightly over \$3k with FICA and retirement costs).

Due to the minor difference this action would produce to the budget, the associated resolution will only amend the personnel detail and not the budget.
