NOTICE OF PUBLIC HEARING

Case No. 2304

Megan Brewer

Dear Sir or Madam:

August 7, 2023

An Appeal under the Zoning Ordinance as applied to the property at 12 Juniper Street, New York, had been filed by Branden Bower.

The request is for a variance to remove the existing 10' x 16.5' roof covering over the deck on the rear of the house and erect a 10' x 16.5' roof covering situated in an R-2 Zone.

Approval of the application was denied or withheld because the roof covering will be located 2.44' from the east property line.

The City of Lockport Zoning Ordinance require a minimum 10' side yard setback in an R-2 Zone.

A Public Hearing will be held by the Zoning Board of Appeals on **Tuesday August 22, 2023 at 5:00 P.M.**, at the Lockport Municipal Building, One Locks Plaza, Lockport, New York, at which time you may appear, if you so desire, either in person or by agent or attorney.

The purpose of this Hearing is to give all affected property owners an opportunity to support or oppose the granting of this Appeal.

VARIANCE STANDARDS (USE VARIANCE)

Applications for use variances must be based on alleviating a clearly demonstrable hardship, as opposed to a special privilege of convenience sought by the owner. Furthermore, the hardship must be peculiar to the land or building and must not generally apply to land throughout the neighborhood. An example of a property that may potentially have a case for a used variance is a corner store in a predominantly residential neighborhood. If the building has large plate glass windows, a parking lot and loading docks in the rear, it would be extremely costly to convert the building to residential uses to comply with existing zoning regulations.

VARIANCE STANDARDS (AREA VARIANCE)

Applications for area variances must be based on some extraordinary topographic condition or other physical condition inherent in the parcel (for example: exceptional narrowness, shallowness, shape or area). This condition must prohibit or unreasonably restrict the use of the land and/or building. One example of special condition: A utility right-of-way cutting through the rear half of several properties within a larger neighborhood limiting the buildable area of those properties, thereby requiring variances for rear and side yard setbacks for those particular property owners to construct new garages or sheds.

DESCRIPTION OF HARDSHIP

(describe the features or conditions of the property that restrict reasonable use of the property under current zoning regulations)

Describe how the requested variance will not alter the character of the larger neighborhood or impact adjacent properties:

NOTICE OF PUBLIC HEARING

Case No. 2305

Megan Brewer

August 7, 2023

Dear Sir or Madam:

An Appeal under the Zoning Ordinance as applied to the property at 109 Independence Dr, New York, had been filed by Kristin & Steve Secord.

The request is for a variance to install a 14' x 28' inground pool situated in an R-1 Zone.

Approval of the application was denied or withheld because the pool installation will increase the lot coverage to 21.3%.

The City of Lockport Zoning Ordinance allows a maximum 20% lot coverage in an R-1 Zone.

A Public Hearing will be held by the Zoning Board of Appeals on **Tuesday August 22, 2023 at 5:00 P.M.**, at the Lockport Municipal Building, One Locks Plaza, Lockport, New York, at which time you may appear, if you so desire, either in person or by agent or attorney.

The purpose of this Hearing is to give all affected property owners an opportunity to support or oppose the granting of this Appeal.

Case No. 2306

Megan Brewer

August 7, 2023

Dear Sir or Madam:

An Appeal under the Zoning Ordinance as applied to the properties at 116 & 120 Main Street, New York, had been filed by Fortress Hill, LLC.

The request is for a variance to utilize a 22-parking space covered parking area for the multi-use, multi-dwelling buildings situated in a B-2 Zone.

Approval of the permit application was denied or withheld because there will only be 22 parking spaces on site for thirty apartment units.

The City of Lockport Zoning Ordinance requires two parking spaces per dwelling unit.

A Public Hearing will be held by the Zoning Board of Appeals on **Tuesday August 22, 2023 at 5:00 P.M.**, at the Lockport Municipal Building, One Locks Plaza, Lockport, New York, at which time you may appear, if you so desire, either in person or by agent or attorney.

The purpose of this Hearing is to give all affected property owners an opportunity to support or oppose the granting of this Appeal.

Responses to ZBA Application

BRIEF HISTORY OF THE PROPERTY

The two commercial structures (116-120 Main Street) make up the redevelopment project site. 116 Main Street is the former Regency Tower, also known as the Farmers & Mechanics Savings Bank "F&M" Building which was constructed in 1905. The six-story structure has had many commercial uses over the years including retail, offices, stock rooms, etc. It has stood largely vacant for over three decades. 120 Main Street is a former single-story urban mall that was constructed in 1975 and has been vacant for several years. Both adjoining properties are owned by Granchelli Development of Lockport.

DESCRIPTION OF PROPOSED ACTION

The Action is the proposed redevelopment of both properties into 30 units of apartments and two commercial spaces, each on the first floor. The "Tower" portion will include commercial/retail space and 16 Apartment Units (11 One-Bedroom Units & 5 Two-Bedroom Units). The "Mall" portion will include a commercial/retail space (currently Edward Jones) and 14 Apartment Units (10 One-Bedroom Units & 4 Two-Bedroom Units). The "Mall" portion will also contain 22 covered vehicle parking spaces for residential tenants and related common areas for the redevelopment.

The current code dictates that the 30 Apartment units are subject to a 1:2 parking space ratio, meaning that 60 parking spaces are required. We find that urban infill redevelopment projects of this nature are 1.25 to 1 ratio, meaning that 38 parking spaces will meet the parking demand.

This being said, we will be providing 22 covered parking spaces in the "Mall" portion of the redevelopment project (see Exhibit 1 attached), so therefore, 16 parking spaces need to be accommodated "off-site". In conversation with the City, these 16 spaces can be accommodated in two ways. Firstly, there can be as many as 33 parking spaces created on city-owned land on Frontier Place just south of the redevelopment project site (see Exhibit 2 attached). Secondly, as many as 7 city-owned parking lots are within walking distance to the redevelopment site (see Exhibit 3 attached).

The applicant has requested a parking variance to reduce the required minimum off-street parking by 64% from 60 required spaces to 22 spaces. Given the unit mix being predominately one-unit bedrooms, the walkability of the area, and the availability of on-street parking, the Applicant believes that the variance request is valid and would allow for the redevelopment of long-vacant property in the city's core.

DESCRIPTION OF HARDSHIP

The urban structures currently contain no parking and previous commercial/retail uses relied on street or surface lot parking to accommodate customers. The redevelopment plan, where the end use is much-needed housing in the city's core, must comply with a 2:1 parking ratio and would render the project non-feasible given the high costs of conversion, especially historic conversion, are mitigated by the income from the rental units. The Applicant has carved out 22 covered vehicle spaces in the internal portion of the "Mall" portion but must counter the redevelopment costs with residential units. The redevelopment will not move forward unless the Applicant's Variance request.

DESCRIBE HOW THE REQUESTED VARIANCE WILL NOT ALTER THE CHARACTER OF THE LARGER NEIGHBORHOOD OR IMPACT ADJACENT PROPERTIES.

The redevelopment project will involve the adaptive reuse of the existing structures and will not have a negative impact on the surrounding area. The project will serve to add vitality to the long-vacant structures and area which has high walkability. 22 vehicle car parks reserved for residential tenants will not be seen by the public.

1. Additional Off-Site Parking Proposed

The Applicant requests that the City of Lockport improves the south side of Frontier Place and remove any associated overnight parking ban so this area can be utilized for residents and visitors to the proposed Project. This would create 33+/- additional spaces.

Farmers & Mechanics Building Redevelopment

116-120 Main Street
Lockport, New York

Project Overview

The redevelopment project features a total of 30 apartment units and first floor commercial/retail space and 23 covered parking spaces. It is divided into two main components:

- Historic F&M Building located at 116 Main Street. The City's tallest building, measuring 19,600 sq. ft., and has stood vacant for over 38 years, will be historically preserved and converted into a mixed use property featuring first floor commercial space in a mix of 16 apartments units on the top five floors.
- Adjacent Former Mall Building located at 120 Main Street. This vacant, single-story structure, measures 31,482 sq. ft., and will be converted into 14 apartment units, common community space, and indoor parking for residents.

NOTICE OF PUBLIC HEARING

Case No. 2307

Megan Brewer

August 7, 2023

Dear Sir or Madam:

An Appeal under the Zoning Ordinance as applied to the property at 55 Independence Drive, New York, had been filed by Andrew Perilli.

The request is for a variance to erect a 16' x 27' covered deck on the rear of the house situated in an R-1 Zone.

Approval of the permit application was denied or withheld because the covered deck will increase the lot coverage to 23%.

The City of Lockport Zoning Ordinance allows a maximum 20% lot coverage in an R-1 Zone.

A Public Hearing will be held by the Zoning Board of Appeals on **Tuesday August 22, 2023 at 5:00 P.M.**, at the Lockport Municipal Building, One Locks Plaza, Lockport, New York, at which time you may appear, if you so desire, either in person or by agent or attorney.

The purpose of this Hearing is to give all affected property owners an opportunity to support or oppose the granting of this Appeal.

BRIEF HISTORY OF PROPERTY

(historic use of property, ownership history, etc.)

4 bed, 2.5 bath. built in 1990. I purchased the home in May 2022. I live here permanently with my wife + dog. Plan to stay here for next 10-20 years + have children.

DESCRIPTION OF PROPOSED ACTION

(include specific use proposed, hours, # of employees, etc.)

Building outdoor patio in backyard for personal use + to host family gatherings. Patio footprint is 16'x27'.

VARIANCE STANDARDS (USE VARIANCE)

Applications for use variances must be based on alleviating a clearly demonstrable hardship, as opposed to a special privilege of convenience sought by the owner. Furthermore, the hardship must be peculiar to the land or building and must not generally apply to land throughout the neighborhood. An example of a property that may potentially have a case for a used variance is a corner store in a predominantly residential neighborhood. If the building has large plate glass windows, a parking lot and loading docks in the rear, it would be extremely costly to convert the building to residential uses to comply with existing zoning regulations.

VARIANCE STANDARDS (AREA VARIANCE)

Applications for area variances must be based on some extraordinary topographic condition or other physical condition inherent in the parcel (for example: exceptional narrowness, shallowness, shape or area). This condition must prohibit or unreasonably restrict the use of the land and/or building. One example of special condition: A utility right-of-way cutting through the rear half of several properties within a larger neighborhood limiting the buildable area of those properties, thereby requiring variances for rear and side yard setbacks for those particular property owners to construct new garages or sheds.

DESCRIPTION OF HARDSHIP (describe the features or conditions of the property that restrict reasonable use of the property under current zoning regulations)

Decreased square footage

Describe how the requested variance will not alter the character of the larger neighborhood or impact adjacent properties:

We simply are replacing a wooden deck in our back yard with a patio with roof. This will not alter any character of the neighborhood or adjacent houses. Our backyard is faced in,

NOTICE OF PUBLIC HEARING

Case No. 2308

August 7, 2023

Megan Brewer

Dear Sir or Madam:

An Appeal under the Zoning Ordinance as applied to the property at 24 Regent Street, New York, had been filed by Dennis Stachera.

The request is for a variance to remove and replace the 18.5' x 20.5' detached garage situated in an R-1 Zone.

Approval of the permit application was denied or withheld because the garage will be located 1.82' from the east property line, 2.98' from the south property line and increase the lot coverage to 30%.

The City of Lockport Zoning Ordinance requires a minimum 5' side and rear yard setback for detached accessory structures and allows a maximum 20% lot coverage in an R-1 Zone.

A Public Hearing will be held by the Zoning Board of Appeals on **Tuesday August 22, 2023 at 5:00 P.M.**, at the Lockport Municipal Building, One Locks Plaza, Lockport, New York, at which time you may appear, if you so desire, either in person or by agent or attorney.

The purpose of this Hearing is to give all affected property owners an opportunity to support or oppose the granting of this Appeal.

BRIEF HISTORY OF PROPERTY

(historic use of property, ownership history, etc.)

Residential use

DESCRIPTION OF PROPOSED ACTION

(include specific use proposed, hours, # of employees, etc.)

Remodel existing garage and build a new garage

VARIANCE STANDARDS (USE VARIANCE)

Applications for use variances must be based on alleviating a clearly demonstrable hardship, as opposed to a special privilege of convenience sought by the owner. Furthermore, the hardship must be peculiar to the land or building and must not generally apply to land throughout the neighborhood. An example of a property that may potentially have a case for a used variance is a corner store in a predominantly residential neighborhood. If the building has large plate glass windows, a parking lot and loading docks in the rear, it would be extremely costly to convert the building to residential uses to comply with existing zoning regulations.

VARIANCE STANDARDS

(AREA VARIANCE)

Applications for area variances must be based on some extraordinary topographic condition or other physical condition inherent in the parcel (for example: exceptional narrowness, shallowness, shape or area). This condition must prohibit or unreasonably restrict the use of the land and/or building. One example of special condition: A utility right-of-way cutting through the rear half of several properties within a larger neighborhood limiting the buildable area of those properties, thereby requiring variances for rear and side yard setbacks for those particular property owners to construct new garages or sheds.

DESCRIPTION OF HARDSHIP

(describe the features or conditions of the property that restrict reasonable use of the property under current zoning regulations)

The present structure is in disrepair - I would like to keep the aesthetics of the garages on both sides the same. They are both 1 1/2 car garages and are placed close to the property line as per the survey sheet.

Describe how the requested variance will not alter the character of the larger neighborhood or impact adjacent properties:

As previously stated - the garages would be the same as the same ones (the fronts). I think it would look odd if this garage protrudes 4 or 5 feet further than the others on both sides.

APPLICATION ATTACHMENTS

To ensure appropriate and timely review of the application, please provide the following additional documentation in support of the application. Failure to provide all of the applicable materials listed below may result in a delay in scheduling the application for review by the Zoning Board of Appeals.

- ☒ \$150 application fee (cash or checks payable to the City of Lockport)
- ___ Detailed site plan (10 copies)
- ___ Photographs of existing conditions
- ___ Property survey (10 copies)

BUILDING PERMIT APPLICATION

Application Number: 2023-0351

Application Date: 06/13/2023

LOCATION: 24 Regent St LOCKPORT, NY 14094

WARD: 2

ZONE: R1

Permission is sought by Carmella Hanley, to perform the following work, at the above location:
remove and replace the existing 18.5' x 20.5' detached garage

Contact type Owner	Full name Carmella Hanley	Phone number
-----------------------	------------------------------	--------------

Requirements	Actual
Lot Coverage	allowed 20% there is 30% existing
Setback 5'	needs 5' has 1.82' east line and 2.98' south line
Other Buildings	
Survey	

This building permit application has been denied because of the following:

The existing lot coverage being at 30% and the garage being located at 1.82' from the east line and 2.98' from the south line are legal nonconforming uses. If the legal nonconforming use is demolished the current zoning requirements must be met. Variances will be required to rebuild the existing detached garage with lot coverage at 30% and side yard setback at 1.82' and 2.98'

The undersigned hereby acknowledges that this application does not meet the minimum standards and that no work is to begin until a building permit has been issued

I do certify that I have examined the forgoing petition and building plans and plot plan and that they do not conform to Ordinances of the City of Lockport, NY
