## Re: Monthly Financial Update - April

This memo will provide an update for the closing of the month of March. Like prior months, appendices A through I are attached for reference. The below sections will describe relevant activities that occurred throughout the month.

## Combined Monthly Sales Taxes

FY 2023 sales tax collection continue to increase compared to prior year collection rates. For the first quarter of the year, excess sales tax over the budgeted allocation amounted to $\$ 172 \mathrm{k}$. If we continue to experience surplus in this line after Q2, the City will likely proceed with appropriation of such funds to replenish delinquent revenue and expense accounts and/or deplete fund balance appropriation.

Exhibit 1. Combined Monthly Sales Taxes, FY 2020 to FY 2023 (YTD)

## Property Tax Collection Rates

Property taxes, billed in January, typically get collected in the beginning months of the year. This year, collection rates are slightly less than FY 2022. By the end of March of last year, 92.9\% was collected, while this year, the collection rate is $92.0 \%$. While only slightly off, this variance (if continued) will have an unfavorable impact with a higher uncollected certificate balance at year-end (and ultimately higher deferred revenue liability in December).

Exhibit 2. Property Tax Collection Rates

| Property Tax Billing Collection |  | 2018 |  | 2019 |  | 2020 |  | 2021 |  | 2022 |  | 2023 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Total Billed | \$ | 14,140,882 | \$ | 13,710,301 | \$ | 14,049,757 | \$ | 13,933,470 | \$ | 13,912,728 |  | 14,192,601 |

| Certificate as Percent of Billed |  | 3.2\% |  | 4.0\% |  | 3.8\% |  | 3.8\% |  | 2.9\% |  | 0.0\% |

## NYS Budget Delay

The NYS budget appropriation has been delayed (for a fifth time) from the original April 1st deadline to April $28^{\text {th }}$. Due to this delay, we do not yet have a NYSDOT appropriation letter for our regular CHIPS/Touring/EWR/POP/PAVE. While not guaranteed, it is likely to be done before the coming May Council Meeting, meaning our NYSDOT will be presented for a budget amendment in early next month.

## Workplace Violence Prevention Policy

This year, City staff, in coordination with union members, have worked to revise the City's Workplace Violence Prevention Policy. Notably, this policy will contain a number of recommendations that should be undertaken to mitigate potential risk for violence for City staff. While some of these recommendations can be done without additional appropriations, it should be noted that these should otherwise be addressed in the FY 2024 budget appropriation and/or in a FY 2023 budget amendment. Items include:

- In-person training and training schedules for new employees
- Utilization of police department panic buttons in off-site work locations
- Increase lighting in select parking lots and open areas
- Improved fencing for high-security areas
- Fix and improve select gates and doors, consider replacing locks with ID swipes
- Increase the use of cameras for select high-risk areas
- Utilize radios for employee-to-employee communications in public works, water, and wastewater
- Have installed phone lines at all locations (when possible)
- Purchase relevant PPE such as bulletproof vests, Plexiglas dividers, gas masks, jumpsuits, and escape ladders

## Ambulance Revenue Update

Initial revenue projections from the third-party consultant for ambulance operations show a annual revenue of $\$ 947,300$ (derived from a total billing of $\$ 1.245$ million). Notably, the difference between this and the previously done third party financial review is that this analysis utilizes actual billing rates with differentiations between BLS and ALS. It should be noted that this figure also includes $20 \%$ in reductions to billed Medicare, Medicaid, and HMO along with $50 \%$ reductions to billed private pay/no-insurance bills to account for unpaid balances.

## Overtime Costs

Overtime costs in the fire department are remaining to trend higher than that of last year. With eight payrolls recorded, current costs have consumed $40 \%$ of the year's budget. At an even amount per payroll (8/27), we would anticipate to see $30 \%$ of the budget exhausted. It is likely a mid-year budget amendment will be required to replenish this line. It should be noted that in theory, overtimes costs should stabilize later this summer when newly trained employees count as minimum staffing, however, the early closure of the local hospital may lead to increased drive and wait times, which can increase costs. This line will continued to be monitored and should be appropriately budgeted for in FY 2024.

In the police department, overtime costs have utilized $23 \%$ of the budget, even amounting to a reduction to costs at this point in time last year. In street maintenance, costs are at $44 \%$ of the budget, but as noted in the prior month memo, overtime has significantly strong seasonality, and this amount is actual $25 \%$ less than that of last year at this point in time. It is unlikely a budget amendment will be required for these departments.

## Police and Clerk Collections

Beginning in May, collections for police and dog control related items will be done in the police department. Proposed by the Mayor and passed by Council earlier this year, this shift away from collections in the clerk's office intends to make payments by citizens easier and more comprehensive.

Notably, this created a shift in the use of the clerk's bank account (which is separate than typically Treasurer-owned bank accounts), which will now exclusively be used for EZNetPay credit card transactions. Daily collections in each the police and clerk's office will be brought to the treasurer's office, while online and credit card payments will be sent to the treasurer's office with a revenue detail once a month. This revision to the process will resolve some inefficient and
delinquent internal controls that existed with the clerk's bank account. Two bank accounts will remain that are for credit card payments only, and these are transferred to the treasurer monthly at a minimum.

## Capital Project Proposals

A proposal by the Mayor to the Common Council regarding recommended capital projects was presented on $4 / 26 / 2023$. Projects will be lead by the City Engineer to get design work created and to RFP. Projects include:

- Water and sewer infrastructure study
- Sidewalk and railing on Gooding St. Improvements
- Chestnut St. Improvements and Traffic Calming
- F450 for Distribution
- Lincoln and Locust St. Improvements
- Lead inventory
- New garage building structure
- Fire apron repairs
- Compost lease agreement
- Compost door replacements, contingent on lease
- Pool renovation
- Splash pad
- Increased EV charging stations
- Solar paneling on City structures
- Water and sewer infrastructure and line repairs
- Lead line replacements
- Violence prevention policy recommendations

Funding sources for projects come from a mixed variety of sources, but primarily recommended from bond proceeds, fund balance, NYSDOT, prior-bond proceeds, and more. While the memo denotes availability of such funding options, specifies concerning each project won't be known until RFP results materialize.

## Health Insurance Expenditures

Health insurance expenses rose by a notable amount this month, increasing from $\$ 312 \mathrm{k}$ in February to $\$ 642 \mathrm{k}$ in March. This would be the highest cost month the City has experienced in recent history. Primary cost drivers of a sudden increase in this fund would typically be one or two high cost claims that have exceeded the stop-loss policy that get reimbursed to us shortly after. However, in looking at the invoice detail, it appears that there are no significant individual claims that are high-cost. One category of claims does contain a high amount of claims with incurred dates ranging from January to March, alluding to a delay perhaps with the Medicare transition to BCBS that occurred in January. The billing advisory team at BCBS is looking into this further to determine what the primary reason for this increase would be. If I am correct with my transition assumption, it is important to note that January to February costs are deflated and for purposes of projections and monthly spending, should be taken in coordination with this larger monthly cost.

## New Monthly Reconciliations

Last year as a response to verbal comments from our auditor, we implemented new monthly reconciliations as per our water and sewer utilization and billing rates. This year, we have expanded our monthly reconciliations done by our staff accountant to include twelve new reconciliations of items that were only periodically throughout the year and at year-end. Notable additions include:

- County tax receivable balance to KVS billing report
- City tax receivable balance to KVS billing report
- School tax receivable balance to KVS billing report
- Tax certificate receivable balances to KVS billing report
- Utility taxes receivable balances to KVS billing report
- Various other reconciliations to overpayments, interfund transfers, etc...

## FY 2022 Audit Progress

The FY 2022 audit has concluded and will be presented to the Council on May $26^{\text {th }}$. We have not yet obtained drafted copies of the financial statements or management letter to review. This year, with the increased use of Federal ARPA funds, the auditors had to do a Federal single audit on Federal spending. This will be included in the report.

Thank you,

Tim Russo
Finance Director
