From: Director of Finance

## Re: Monthly Financial Update - March

This memo will provide an update for the closing of the month of February. Like prior months, appendices A through I are attached for reference. The below sections will describe relevant activities that occurred throughout the month.

## Cash Flow Statements

Annual indirect cash flow statements are updated for the 2022 fiscal year and are included after the appendix of this memo. Net cash provided by operating activities is positive in each fund outside of sewer (discussed in detail in last month's memo) and capital projects, which has a large year-end increase in receivables. These are receivables for costs related to reimbursement-based projects and are to be fulfilled in FY 2023.

## Deferred Revenue Calculation

Deferred revenue is a liability that essentially captures tax revenues that are not liquid cash within 60 days of FY 2022 ending, or by March 1, 2023. This account, which only gets updated annually during closing, had a major change on $12 / 31 / 2022$ of over $\$ 200 \mathrm{k}$. This adjustment provided 'relief' to the General Fund and shifted the resulting budgetary surplus upwards.

This sudden shift is a result of two things, the first of which is that the 2022 year-end uncollected property taxes (and resulting certificate) were a unprecedented low at $2.9 \%$ of the total billed. In prior years, the uncollected certificate were as high as $4 \%$. The 2022 valuation of $2.9 \%$ is the lowest we have experienced in recent years (even before COVID-19). We are continuing to monitor in FY 2023 to determine if perhaps this is a one-time outlier, or if the City may be trending towards this higher collection rate. Collection data (and the resulting unpaid certificate balance) are shown on the following page in Exhibit 1 for FY 2018 to FY 2022.

Exhibit 1. Property Tax Collection Data, FY 2018 to FY 2022

| Property Tax Billing Collection |  | 2018 |  | 2019 |  | 2020 |  | 2021 |  | 2022 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Total Billed | \$ | 14,140,882 | \$ | 13,710,301 |  | 14,049,757 |  | 13,933,470 | \$ | 13,912,728 |
| January | \$ | 7,070,466 | \$ | 5,705,665 |  | 12,056,115 |  | 12,161,630 | \$ | 12,318,226 |
| February | \$ | 5,719,586 | \$ | 6,473,094 | \$ | 384,380 | \$ | 292,897 | \$ | 374,471 |
| March | \$ | 242,687 | \$ | 270,443 | \$ | 146,409 | \$ | 283,333 | \$ | 232,570 |
| April | \$ | 262,850 | \$ | 321,758 | \$ | 149,966 | \$ | 160,837 | \$ | 150,101 |
| May | \$ | 76,362 | \$ | 77,053 | \$ | 165,880 | \$ | 155,683 | \$ | 151,339 |
| June | \$ | 46,355 | \$ | 55,287 | \$ | 175,650 | \$ | 93,464 | \$ | 45,710 |
| July | \$ | 36,842 | \$ | 58,999 | \$ | 131,316 | \$ | 33,252 | \$ | 49,073 |
| August | \$ | 45,330 | \$ | 37,602 | \$ | 42,858 | \$ | 40,178 | \$ | 36,726 |
| September | \$ | 34,246 | \$ | 30,382 | \$ | 56,790 | \$ | 16,688 | \$ | 40,474 |
| October | \$ | 44,476 | \$ | 35,019 | \$ | 89,828 | \$ | 91,449 | \$ | 89,580 |
| November | \$ | 65,930 | \$ | 99,499 | \$ | 115,681 | \$ | 73,001 | \$ | 25,472 |
| December | \$ | 49,364 | \$ | - | \$ | 148 | \$ | 93 | \$ | 1,917 |
| Uncollected Certificate | \$ | 446,389 | \$ | 545,498 | \$ | 534,735 | \$ | 530,965 | \$ | 397,069 |
| Total | \$ | 14,140,882 | \$ | 13,710,301 |  | 14,049,756 |  | 13,933,470 | \$ | 13,912,728 |
| Certificate as Percent of Billed |  | 3.2\% |  | 4.0\% |  | 3.8\% |  | 3.8\% |  | 2.9\% |

The second factor is the delay of the in-rem cycle due to COVID. Typically, this cycle will produce payments and write-offs that will lower our outstanding tax certificate balances in September. As we have not been able to have the in-rem process occur over the past few years, our tax certificate balances were not experiencing this relief but instead building accumulated balances which have now dropped steeply to pre-pandemic levels after our last in-rem cycle in FY 2022. This can be seen in Exhibit 2 below.

Exhibit 2. Monthly Tax Certificate Balances, FY 2018 to FY 2022

| Tax Certificate Balances |  | 2018 |  | 2019 |  | 2020 |  | 2021 |  | 2022 |

## February Combined Sales Tax

Combined monthly sales experienced in February was $\$ 691 \mathrm{k}$, almost $\$ 100 \mathrm{k}$ greater than that experienced in February of 2022 ( $\$ 593 \mathrm{k}$ ). Compared to our budget in FY 2023, the month of February produced a budgetary excess of $\$ 89 \mathrm{k}$. We will continue to monitor this throughout the year and take appropriate action as necessary to increase the budget if a surplus remains by June. Exhibit 3 (below) shows the combines sales tax revenue for the first two months of the year for FY 2020 to FY 2023. Note that January revenue is accrued into December of the prior year, and is therefore $\$ 0$ every year.

Exhibit 3. January through February Combines Sales Taxes FY 2020 to FY 2023

## Worker's Compensation Buyouts

A component of worker's compensation administration that has not been utilized too much during the past years is the buyout of claimants to settle their compensation. In making a one-time payment, an agreement is made with the individual that City liability for monthly payments are settled and no longer required. This is recommended to be done when cash balances in the Worker's Liability fund are high and can support said buyouts without impact to supporting the regular payments to be made to claimants. In FY 2022, a net budgetary surplus of $\$ 381 \mathrm{k}$ in the fund (and resulting $\$ 300 \mathrm{k}$ in net cash provided) has led the fund to an all time cash high of $\$ 2.7$ million, well in excess of minimum cash requirements.

Our third party administration has recommended to move forward with negotiating settlements with claimants this year. Doing so will reduce the budgeted premium we have to maintain in the General, Water, and Sewer Funds in the FY 2024 budget, and potentially alleviate property tax and user fee rate increases. In coming months, we can expect to see larger one-time costs occurring in the Worker's Compensation fund as a result of this.

## Water and Sewer Utilization

While January produced promising results in terms of utilized water and sewer consumption City-wide (and therefore billing revenue), the month of February did not produce such favorable results. Water consumption dropped by 1,095 cubic feet and sewer dropped by 6,338 cubic feet compared to February 2022, the result of lower industrial usage in the month. Total year-to-date consumption for 2023 is lower than that experienced in the first two months of 2020 through 2022.

The FY 2023 budget and resulting user fee increase accounts for a reduction in usage unlike previous year, however, if trends continue to be unfavorable, the City will need assess whether such decline is the result of meter failures or fraud, and if not, how to reduce operations in both funds to mirror lower usage. This discussion is, in theory, no different to reductions made when municipal populations decline and operations must be amended in order to match financial inputs.

## Police, Fire, and Street Maintenance Overtime

Overtime costs typically vary each year City-wide as operational requirements shift. Three departments that have high overtime budgets are the Police, Fire, and Street Maintenance departments.

The Police Department has spent $15 \%$ of their budget so far in the year. Based on the amount of payrolls being accounted for in this figure ( 6 payrolls), we would anticipate the departments to have used $23 \%$ of the year's budget. Compared to the payrolls last year, the department has incurred $14 \%$ less costs. There is no current anticipation that they will exceed their budget appropriation for the 2023 fiscal year.

The Fire Department has spent $24 \%$ of their annual budget so far. Again, based on the amount of payrolls being accounted for in this figure ( 6 payrolls), we would anticipate the departments to have used $23 \%$ of the year's budget. While this in of itself is not cause for concern, spending for the first 6 payrolls this year is $65 \%$ more than that of last year, however, much of the variance is due to one payroll in particular. Due to altered operations occurring for ambulance, we will continue to monitor monthly to ensure that appropriations are realistic based on spending projections. Later this Spring/Summer, minimum staffing will be met with new employees having attended training, which will lower costs.

Street maintenance has incurred $42 \%$ of their budget, however much of it is related to winter storm work and is not evidently outside the norm of the department. Cost compared to last year for the first 6 payrolls are down $24 \%$. Overtime in the department is largely winter-related, as severe storms near the end of last year caused over $\$ 50 \mathrm{k}$ in overtime in the department, exceeding their budget for the year. In other years without significant winter storms, costs totaled around $\$ 80 \mathrm{k}$ for the year. With this seasonality in mind, we can expect to see overtime in payroll decline in the summer and fall and pick up again later in the winter months. As such, despite already spending $42 \%$ of the budget, there is no large cause for concern yet in this budget.

## ARPA Funding and 12-Ton Truck Issue

In FY 2021 and FY 2022, the City was awarded a total of \$2,082,557.84 in the Federal American Rescue Plan Act of 2021 ("ARPA"). Council has allocated $\$ 1,803,132$ of said funds, with $\$ 279,426$ remaining unallocated. This unallocated portion was intended to be used as a reserve for costs relating to the sewer compost study which is still underway (albeit late) with Nussbaumer, however, one authored use of the funds, a 12-ton truck, has experienced ordering issues which require additional funds.

The 12-ton truck requires additional funds in the amount of $\$ 41,429$ to complete the order with a newer 2024 base component, and a resolution will be presented to Council in April to appropriate the additional ARPA funding to this project. In addition, a separate resolution will be presented to Council in April / May to authorize another 12-ton truck to be purchased from CHIPs funding. This will help the City be more efficient and effective in our street maintenance and allow us to use more CHIPs/Touring funds in the year to get projects done (as opposed to having it roll over to the following year as it occurred in FY 2022).

## Audit Committee Revision

The audit committee is an important feature for any municipality, as it allows financial professionals in the community to engage with and provide recommendations to the City on how to improve financial capabilities, reporting, policies, and internal controls. In the current and past years, undefined and vague responsibilities have prevented this group from creating significant progress or improvements. As such, it has been recommended that the City revise outdated procedures and create an updated and more approachable procedure guide for the committee to act under. This policy will be presented to the Council in April, and will include the below responsibilities -

- Review financial data and reports to identify any substantive trends or concerns that may be overlooked.
- Make recommendations on methods to improve financial data, reporting capabilities, accessibility, and internal controls.
- Review City-made corrective-action-plans (CAPs) and ensure that curative action is being done to minimize future audit findings.
- Ensure that a logical methodology is being used in the contracting and RFP process / selection of the $3^{\text {rd }}$ party auditor.
- Meet with third party auditor to independently review management letter and financial statements.

Responsibilities and goals modified to fit the needs and norms of City operations are meant to provide the Community with a defined and open way to interact with City finances and management. Materials to be reviewed will consist of reports and data newly published monthly to the public online via the new Open Finance Portal on the City website as well as internal monthly memos. We are looking forward to having more engagement from the Community, as it is such an important tool for any municipality.

## State Budget Update

While the NYS budget is not reconciled and appropriated until April 1, there have been some updates as per the Senate and Assembly to some items that would impact the City. These items include:

- Aid to Municipalities (AIM - our main NYS funding for the General Fund) - the Senate proposed to increase this distribution while the Assembly did not consider this option. The Proposed Budget kept funding flat to prior year.
- NYS DOT Funding (CHIPs, POP, PAVE NY, EWR, Touring) - the Senate proposed to increase distributions while the Assembly only considered an increase to PAVE NY. The Proposed Budget kept funding flat to prior year.
- In-Rem alteration - the Proposed Budget would require that excess in-rem proceeds are to be paid to the owners of the property as opposed to the City General Fund as revenue. Neither the Senate nor the Assembly included this proposal in their one-house budgets.
- Minimum wage - the Proposed Budget proposes to automatically increase the minimum wage, consistent with the year-over-year Consumer Price Index-W for the Northeast Region. Neither the Senate nor the Assembly included this proposal in their one-house budgets.
- Bonding for Lead Service Lines - The Proposed Budget would establish a period of probable usefulness (PPU) for lead service lines so that lead service line replacement projects would be eligible for certain kinds of funding and financing as required by the terms and conditions of the federal Bipartisan Infrastructure Law. The Senate and Assembly both accept this proposal.

More updates as per the reconciliation and passed budget will be presented next month.
Thank you,

Tim Russo
Finance Director
