Re: Monthly Financial Update - Mid Year Financial Analysis

With one-half of this year's financial transactions recorded, this July finance memo will provide a mid-year update to our budgetary projections and larger-scale fund balance forecasts. Like prior months, it is accompanied by the Appendices A through L as well as an updated budget performance/trial balance report.

General Fund

As seen in **Appendix I** (attached), Total YTD (year to date, 1/1/2022 to 6/30/2022) expenditures in the general fund total \$12.3 million, which amounts to 47% of the fund's appropriated budget. FY 2021 YTD (1/1/2021 to 6/30/2021) spending totaled \$11.3 million over this same period, a difference of \$1 million. This increase in spending is primarily associated to increases in personal services (as a result of newly funded positions in this year's budget, COLA's, step increases, etc) as well as increases found in employee benefits. Expenditures over the FY 2021 YTD and FY 2022 YTD periods both total 47% of the respective year's budget.

Total YTD revenue for FY 2020 totals \$17.6 million, or 67% of this year's budgeted appropriation. With a modified accrual basis of accounting, the largest revenue source in the fund, property taxes, are recorded as revenue in the beginning of the year. As a result, our revenues are not typically evenly distributed monthly in this fund. In similar fashion, our cash balance in the General Fund will be the largest in January, and will decrease gradually each month until December (as seen in **Appendix B**). The FY 2021 YTD revenue over this same period totals \$17.2 million, which is inclusive of a portion of withheld NYS AIM from FY 2020. (This withheld portion was not recorded as revenue in FY 2020 as the certainty of it was uncertain at the time.)

The updated monthly cash flow statement (attached as **Appendix C**) for the general fund shows a projected reduction in expenditures for July and August (as debt payments and a triple payroll month created increases in normal spending levels for May and June) and a significant increase in December, due to three and a half payrolls in the month as well as the payment of our annual retirement invoice. Estimated expenditures total \$26.2 million for the year, slightly less than the budgeted \$26.3 million budget due to lesser personnel/benefit costs than anticipated.

Projected revenues for the year (also forecasted in **Appendix C**) total \$26.4 million with positive variances coming from excess sales taxes revenue over the anticipated and budgeted amounts. As a result, the fund is projected to experience a slight surplus at year-end amounting to \$222k (as seen in **Exhibit 1** on the following page).

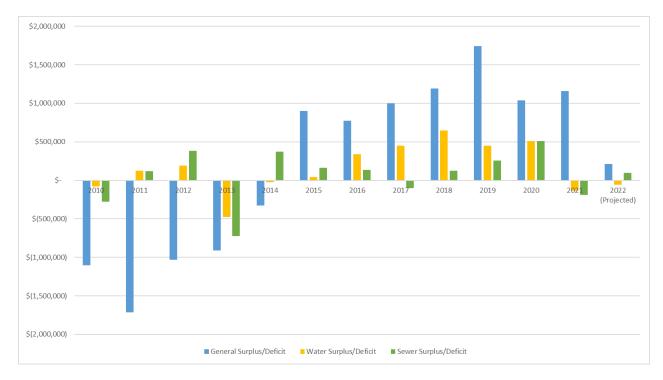

Exhibit 1. General, Water, and Sewer Funds - Annual Budgetary Surpluses / (Deficits), 2010 to 2022 (Projected)

If realized, this would increase our unreserved fund balance to \$9,472,420, or 36% of the year's expenditures (found in **Exhibit 2** below).

Exhibit 2. General, Water, and Sewer Unserved Fund Balances, 2010 to 2022 (Projected)

Sewer Fund

Sewer Fund expenditures total \$1.8 million YTD this year (as seen in **Appendix L**), \$20k greater than the YTD spending found in FY 2021. As a percent of their respective budgets, both YTD spending amounts represent 44% of the fund's budget for the year as of 6/30/2022. Total spending in FY 2021 amounted to \$4,260,405, which is slightly less than the current amended budget for FY 2022 (\$4.3 million). While we may seem to be on track to mirror the spending patterns of last year, year-end expenditures in FY 2021 were significantly inflated due to the flood incident. This year, personnel costs are slightly less than what is anticipated due to vacancies and turnover in the fund's departments.

Revenue realization is greater in FY 2022 YTD compared to that of 2021 YTD, however, the reason for this increase is due to the billing related to the Town's obligation to the City for sewer services. Last year, we had not yet realized the second quarter bill by this point in time, but this year, we have already recorded it in May. If we had recorded this revenue by 6/31/21, the total YTD revenue for last year in this fund would have totaled \$1,928,772, just \$3k less than what we have recorded for FY 2022 YTD. Looking at Exhibit A, we can see that FY 2022 sewer rent billing is actually slightly lower than that of FY 2021, but should increase for the remainder of the year due to the fully realized rate increase from the FY 2022 budget. The lag from raising a rate to experiencing higher billed revenue was not anticipated in the budget, and as a result may cause budgeted revenues to be higher than what can realistically achieve this year.

Given the estimated revenues and expenditures for the fund (and as seen in **Exhibit E**), we are still anticipating a slight budget surplus of 36k. This would represent 47% of the year's expenditures. As a note, the fund balance policy for this fund requires cash balances to be maintained as opposed to unrestricted fund balance as a percent of spending.

Water Fund

The Water Fund has had current YTD expenditures totaling \$2.0 million (as seen in **Exhibit K**), which is \$18k lesser than that of the FY 2021 YTD amount. While COLA's began on 1/1/2022, personnel costs in the fund have actually been \$7k less than that of last year, primarily due to turnover and vacancy in the fund's departments. Total fund spending in FY 2021 amounted to \$4.3 million, which is less than the FY 2022 budget of \$4.4 million. It is anticipated that our expenditures will likely follow that of last year, outside of a \$72k purchase of a piece of equipment using fund balance last year.

YTD revenues in the fund have amounted to \$11k less than that of YTD 2021 (\$1.9 million). As in the Sewer Fund, there is similarly a lag between the increase in legal billing rates and the increase in experienced revenue which may minimize revenue attainment to be slightly less than that of the budgeted amount for this year. That being said, the total revenue projection found in **Appendix D** forecasts a total fund revenue in the amount of \$4.3 million, which will amount to a \$66k deficit. This largely follows the amount of encumbrances that were carried into FY 2022 (totaling \$46k) using prior year fund balance.

As a result of the slight fund balance utilization in FY 2022, the fund's unreserved balance drops to \$2.8 million. This can also be found in **Exhibit 1** and **2** on the previous page.

Refuse and Recycling Fund

The Refuse and Recycling has on average experienced a monthly expenditure of around \$90k for refuse services from Modern (some months will also contain debt payments and equipment costs as well). Total projected expenditures for this year amount to \$1.4 million. The first May billing this year produced \$711k in revenue, which will likely be doubled this October for a total revenue of \$1.5 million and a slight surplus of \$85k. This surplus will contribute to a better cash balance in the fund, which typically draws negative at least once each year (this can be seen in **Appendix B**). With more surplus (and likely increased cash balances), we can begin to reduce this amount until we maintain a healthy cash flow in the fund.

Health Insurance

Expenditures in the health insurance fund YTD have totaled \$2.5 million, which is significantly less than that experienced in the same prior year period (\$3.5 million). FY 2021 saw a large influx of claim expenses and cost that were put off in FY 2020 due to COVID-19. While we have experienced a slight increase in our incurred but not yet paid claims due to the transition to Highmark BCBS, it is not nearly the extent of that seen last year.

Total YTD internal service revenue of the health insurance fund has amounted to \$3.3 million. Given the budgeted revenue for the year (\$7.0 million), we would anticipate slightly higher revenues (in the amount of \$200k), but experience less interfund transactions due to vacancies within the various funds' departments.

Given the low claim costs experienced this year, we are projecting a \$500k surplus at yearend FY 2022. This surplus assumes that we have higher year end costs again due to the high incurred but not paid claims that we currently have outstanding. That being said, it may be appropriate to utilize a portion of the excess in the budget process next year to minimize the annual estimated cost increases in costs as projected by Lawley.

Worker's Compensation

Similar to health insurance costs, the City has experienced low worker's compensation costs for the current YTD period. This year, costs have totaled \$287k, which is just \$11k less than that of the FY 2021 YTD period. Revenues this year have totaled \$448k this year, and are budgeted at \$861k for the entire year. It may be appropriate to utilize a portion of the excess again in the coming budget cycle to minimize premiums.

FY 2022 Utilities and Special Items

A few areas of spending this year have experienced cost increases outside the norm of inflation due to either supply issues and/or national trends. Included in this is gasoline, electric and natural gas utilities, chlorine and other chemicals, and postage. A number of budgeted line items for these are nearing the end of their projected amounts and will to be replenished for the remainder of FY 2022. The following pages include the line items, the amounts spend YTD, and the amounts estimated for the remainder of the year.

Exhibit 3. Utilities and Special Line Items

| Fund A - General Fund | Line | Description | Buc | lget | YTD Transactio | ns | Additional Needed |
|--|-------|----------------------------|-----|---------|----------------|----|-------------------|
| Department 1670 - Central Printing and Mailing | 54020 | Postage Expenses | \$ | 34,000 | \$ 21,00 | 00 | \$ 8,000 |

| | | | | | TOTAL | | \$ 241,500 |
| Fund FX - Water Fund | | | | | | | |
| Department 1900 - Special Items | 54078 | Gasoline, Oil, Diesel Fuel | \$ | 18,000 | \$ 16,22 | 29 | \$ 10,600 |
| Department 8310 - Water Administration | 54020 | Postage Expenses | \$ | 16,000 | \$ 9,00 | 00 | \$ 3,000 |
| Department 8320 - Pump Stations | 54520 | Chemicals | \$ | 18,000 | \$ 15,00 | 00 | \$ 12,000 |
| Department 8320 - Pump Stations | 54623 | Utilities - Electricity | \$ | 73,000 | \$ 57,37 | 75 | \$ 41,000 |
| Department 8330 - Filtration | 54620 | Utilities - Natural Gas | \$ | 27,000 | \$ 23,48 | 37 | \$ 20,000 |
| Department 8330 - Filtration | 54623 | Utilities - Electricity | \$ | 88,000 | \$ 54,04 | 45 | \$ 20,000 |
| Department 8340 - Distribution | 54620 | Utilities - Natural Gas | \$ | 4,500 | \$ 4,3 | 70 | \$ 4,200 |
| | • | | | | TOTAL | | \$ 110,800 |
| Fund G - Sewer Fund | | | | | | | |
| Department 1900 - Special Items | 54078 | Gasoline, Oil, Diesel Fuel | \$ | 12,500 | \$ 12,50 | 00 | \$ 10,000 |
| Department 8130 - Wastewater Treatment | 54620 | Utilities - Natural Gas | \$ | 50,000 | \$ 29,42 | 15 | \$ 10,000 |
| Department 8130 - Wastewater Treatment | 54623 | Utilities - Electricity | \$ | 105,000 | \$ 68,16 | 66 | \$ 31,000 |
| Department 8135 - Wastewater Compost | 54623 | Utilities - Electricity | \$ | 11,000 | \$ 10,47 | 76 | \$ 10,000 |
| | | | | | TOTAL | | \$ 61,000 |

I will be preparing a resolution to Council to utilize a mixture of line item reductions as well as contingency use to increase the budget of these line items so that we continue to pay for utilities/gas./etc... It should be noted that the continuation of the current high prices are included in the projections and forecasts mentioned above (and is why the projected annual contractual costs in each fund are slightly greater than that originally appropriated).

Thank you,

Im Ando

Tim Russo Finance Director
