To Whom It May Concern:

I, Juan M. Quinones, am the owner of the above referenced property and on January 9, 2024 a tree limb fell on the roof of my enclosed front porch causing extensive damage which resulted in needing to have the entire porch demolished and rebuilt. I have been reaching out to the city of Lockport for the past three years to have that tree and the tree next to it removed due to the trees being dead but have not gotten any response or resolutions to the issue. When the city workers came to trim the branches last, they let us know that the one dead tree needed to be removed ASAP because it was hollowed out. I am respectfully asking that the city has this issue handled as soon as possible before more damage is done or someone gets hurt. If you have any questions please feel free to contact me on my cell phone, (716)382-8169. Thank you.

DESCRIPTION OF PRECISE LOCATION AND NATURE OF CONDITION:

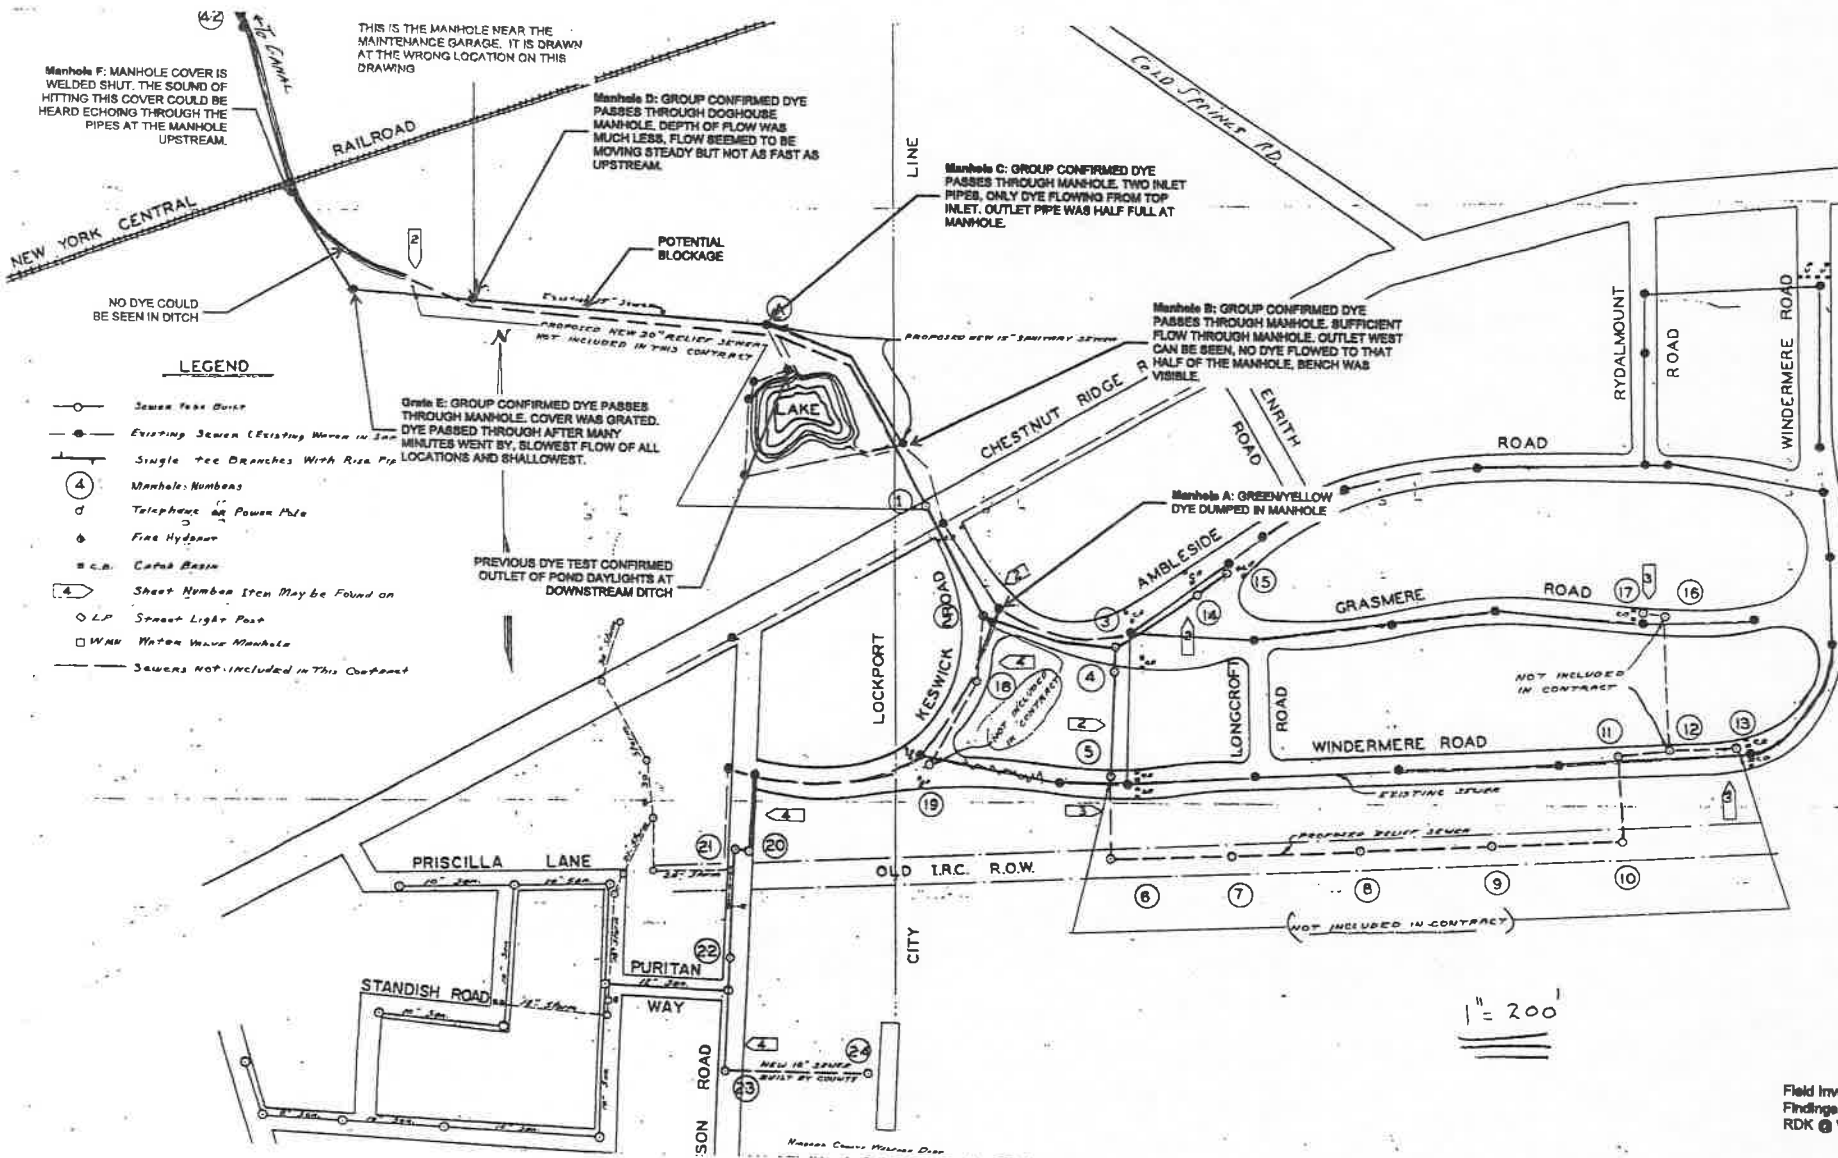

The City of Lockport created a drainage issue for the Town and Country Club, 717 East Avenue, Lockport, NY, when it designed and allowed water from the Colonial Meadows subdivision to drain onto property located at 707 East Avenue, Lockport, NY, which adjoins the Town and Country Club, Inc. property. Attached hereto as Exhibit 1 is a Wendel dye test map showing the Town of Lockport New York water drainage from Carlisle Gardens subdivision across the Town and Country's property. Also shown in yellow on Exhibit 1 is the City of Lockport's Colonial Meadows subdivision drainage from Priscilla Lane underground and across East Avenue into property known as 707 East Avenue, Lockport, NY. Said city's water drainage from beneath East Avenue makes entry unto 707 East Avenue, Lockport, NY, by right of way recorded in the Niagara County Clerk's Office March 29, 1957 in Liber 1253 of Deeds at page 78 given by Gladys W. Marshall.

Attached as Exhibit 2 is a map of the right of way granted by Gladys W. Marshall to the city in March of 1957. This right of way creates a small ravine or separation between 707 East Avenue and 717 East Avenue. No right of way exists between the City of Lockport and the Town and Country Club, Inc. Shown in blue on Exhibit 1 is the approximate location of this ravine. Periodically the ravine fills up with water, silt, debris and overflows onto the 18th green, the surrounding sand traps, fairway and pond of the Town and Country Club, Inc. A private drainage pipe acts as a conduit to funnel some of the water into the existing pond creating an issue of the pond's ability to retain the water/debris/silt/etc. The pond now has become full and the retaining walls face fatigue

which could create a catastrophic wall collapse damaging other fairways, greens, and buildings owned by the Town and Country Club, Inc. The Town and Country Club, Inc. will now be forced to drain and remove the buildup of items from the pond in front of the tee area on the 18th fairway. The west end tile of the said drain has previously become clogged and broke causing damage to the said sand traps, fairway, and pond. The Town and Country Club, Inc. sustained damage and repair costs of approximately \$17,800.00. Simple stop-gap repairs do not remedy the problem. The Town and Country Club, Inc. does not want to cut off or dam up the private drain as this may cause backup damage to houses in the Colonial Meadows subdivision.

The Town and Country Club would want the City of Lockport to design and implement a plan to drain the ravine and establish and maintain a pipeline which would prevent further damage to the said fairway, sand traps and pond by permanently diverting said water, debris, silt etc. Otherwise, the Town and Country Club, Inc. will continue to sustain damage either by flooding or failure of the pond's infrastructure and costs to remedy the same.

1. Introduction

On February 28, 2024 the City of Lockport Common Council Finance Committee approved the Fire Chief's request to seek bids to rebuild the motor on ambulance #65, a 2008 Ford E450 Braun, in order to preserve its purpose as a reserve ambulance within Fire Department ambulance operations.

The department utilizes four ambulances within its operation to ensure uninterrupted service to the citizens of the City of Lockport. One of which is a reserve unit that rotates into service whenever one of the other three front line vehicles requires maintenance or repair.

As of February 2, 2024, ambulance #65 has been out of service due to engine issues and the recommendation from City Mechanics is to have the engine rebuilt in order to ensure reliable operation of the unit for the next several years.

The project must include, but necessarily be limited to, the following work:

- New head gaskets & ARP head studs
- Updated oil stand pipes & dummy plugs in both high pressure oil rails
- New injectors
- New high pressure oil pump w/upgraded S.T.C fitting
- New IPR valve, ICP sensor & pigtail connectors
- New oil cooler

If required, vendors may elect to discuss with City officials to determine greater specifics as required. If desired, please contact Fire Chief Luca Quagliano at lquagliano@lockportny.gov or 716-439-6611.

3. Selection Process

It is intended that the Council will be voting on this bid on March 13, 2024. A committee will be appointed by the Mayor that will evaluate the submissions. Hello Sarah,

Please see the attached documents that the NYS Department of Transportation sent over for the proposed property acquisition on the east side of Transit Road between Lincoln Avenue and Lincoln Drive. The New York State Department of Transportation (NYSDOT) is in the preliminary design stages of a highway rehabilitation project along NY Route 78 (Transit Road) in the City of Lockport and Towns of Amherst and Pendleton. In order to complete the full scope of work, a permanent acquisition (FEE) at Childrens Memorial Park (between Lincoln Avenue and Lincoln Drive) will be required. The permanent acquisition (FEE) would include approximately 1,997 square feet to include the existing sidewalk and curb ramp, which will be reconstructed to comply with current standards set forth by the Americans with Disabilities Act (ADA). The acquisition of public parkland for use in transportation projects is regulated by Section 4(f) of the US Department of Transportation Act of 1966 and requires approval from the Section 4(f) Official with Jurisdiction.

Therefore, the NYSDOT requests a letter whether the City of Lockport agrees or disagrees with the permanent acquisition.

In the letter that they provided, they stated that the public shall have an opportunity to comment. With that being said, would you be able to call for the public hearing at the March 13th council meeting, followed up with the actual public hearing on March 28th?

Thank you.

Good Afternoon Steven,

I am following up on a message I left with the Engineering Department and the Highways & Parks Department regarding a NYSDOT highway rehabilitation project along Transit Road in the City of Lockport. The email below and attachments were originally sent to the City of Lockport through the *info* email address listed on the City's website. I don't know if your Office or Highways & Parks received the original request. Would you please take a look at the request below and attachments, or forward to the appropriate department office?

The New York State Department of Transportation (NYSDOT) is in the preliminary design stages of a highway rehabilitation project along NY Route 78 (Transit Road) in the City of Lockport and Towns of Amherst and Pendleton. In order to complete the full scope of work, a permanent acquisition (FEE) at Childrens Memorial Park will be required. The FEE would include approximately 1,997 square feet to include the existing sidewalk and curb ramp, which will be reconstructed to comply with current standards set forth by the Americans with Disabilities Act (ADA). The acquisition of public parkland for use in transportation projects is regulated by Section 4(f) of the US Department of Transportation Act of 1966 and requires approval from the Section 4(f) Official with Jurisdiction. The NYSDOT therefore respectfully requests a letter whether the City of Lockport agrees or disagrees with the permanent acquisition.

Please see that attached letter and enclosures for additional information.

Feel free to reach out with any further questions or comments.

NY ROUTE 78 (TRANSIT RD) HIGHWAY REHABILITATION

Dear Mayor Lombardi:

The New York State Department of Transportation (NYSDOT) is in the preliminary design phases of the above-referenced, federally funded transportation project to rehabilitate NY Route 78 between Millersport Highway and Summit Street. The project proposes improvements to the roadway, pedestrian facilities and deficient drainage along the route.

The project proposes the reconstruction of an existing sidewalk and a new ADA compliant curb ramp along the eastern side of NY Route 78 (Transit Road) directly in front of Childrens Memorial Park. This reconstruction will require the permanent acquisition (FEE) of approximately 1997 square feet of Right-of-Way (ROW) from Childrens Memorial Park (see enclosure). The acquisition will not interfere with park activities and access to the park will remain open throughout the duration of construction activities. **The acquisition of public parkland for use in transportation projects is regulated by Section 4(f) of the US Department of Transportation Act of 1966 (Act).** Furthermore, the 2005 revision of the Act established procedures for states to acquire minor amounts of ROW through Eminent Domain Procedure Law from public parklands as a *de minimis* use.

NYSDOT will be requesting that the Federal Highway Administration (FHWA) consider this action be considered a *de minimis* use. As regulated under Section 4(f), and as part of the *de minimis* determination, NYSDOT must obtain a letter from the Official with Jurisdiction and solicit public comment on the 4(f) action before obtaining *de minimis* concurrence from FHWA.

As the rightful owner of the property, the City of Lockport is considered the Section 4(f) Official with Jurisdiction. **After the City has reviewed this action and allowed the public an opportunity for comment**, NYSDOT respectfully requests an "Official with Jurisdiction" letter stating whether the City agrees or disagrees with the *de***

minimis determination. If the City agrees with the action (FEE acquisition) and the *de minimis* determination, NYSDOT asks that the City provide a letter to NYSDOT with the following text included:

"The City of Lockport has no objections to the de minimis determination of the proposed action (acquisition of approximately 1997 square feet of ROW) from Childrens Memorial Park and that this action will not adversely impact the activities, features, and attributes that qualify this property (Childrens Memorial Park) for protection under the Department of Transportation Act of 1966, Section 4(f)."

This letter is required for NYSDOT to move forward with consultation with FHWA and to progress the project. If you have any questions regarding Section 4(f) requirements or need additional information, please contact me by phone at (716) 855-7035, or via email at Jennifer.Reusch@dot.ny.gov.

Subject: [EXTERNAL] Public Hearing for a new Microenterprise grant application

Hi Sarah,

Heather and I have been planning to apply for a new round of funding to provide Microenterprise grants in the City. In order to do so, the City will need to conduct a public hearing (this is funded with the same CDBG funding source as Big Ditch). I've attached, for your review, a resolution and accompanying notice to call for the Public Hearing. Based on the calendar, I thought the call for the hearing could be at the March 6th meeting of the Common Council, scheduling the hearing for March 20th. Please let me know if you think those dates will be a problem. Also, feel free to adjust the time as appropriate.

Please let me know if you have any questions or concerns, or need additional information.

Thanks!
